

NECK TURNING CASEHOLDERS - NECK TURNING CASE HOLDER, #2, PPC FAMILY

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Neck Turning Accessories](#)

The Sinclair Driver and Caseholder system is designed to hold and turn your case while you are neck turning, cleaning case necks or case mouth deburring. The caseholders and driver are machined from stainless steel, and the driver has a ¼" hex shaft for use in power screwdrivers or low speed drill motors. The driver is universal to the Sinclair system and will work with all the caseholders. Our Universal Caseholder enables you to use this system with our Sinclair Stainless Shell Holders listed on page 29. Select the appropriate shell holders for your favorite cartridges.. The Universal Caseholder works with the same #05-200 driver as our original caseholders, and it is available as a "kit" with the Driver and Universal Caseholder or individually for those who already have a driver. Remember to order the Sinclair Stainless Shell Holders for your Universal Caseholder if you don't already have them. This system is a great, inexpensive way to speed up the neck turning process. Also works great for many other case prep operations.**NOTE: When ordering case holders, you will need to order a case holder driver as they are sold separately.**

Attributes

- Name: [NECK TURNING CASE HOLDER, #2, PPC FAMILY](#)

NECK TURNING CASEHOLDERS NECK TURNING CASE HOLDER Safety Instructions

Introduction

Thank you for choosing the NECK TURNING CASEHOLDERS NECK TURNING CASE HOLDER, #2, PPC FAMILY. This product is designed to assist you in neck turning, cleaning case necks, and case mouth deburring. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always read the instruction manual before use.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Report unsafe products and accidents to local authorities.
- Stay informed about any recall updates by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always use the caseholder in a wellventilated area to avoid inhaling any dust or debris generated during operation.
- Ensure that the driver is properly secured to the caseholder before use to prevent accidents.
- Do not exceed the recommended speed settings when using power screwdrivers or lowspeed drill motors.
- Wear appropriate personal protective equipment (PPE), such as safety glasses, to protect your eyes from debris.
- Avoid using the product if you are under the influence of drugs or alcohol.

Instructions for Installation and Usage

1. Setup:

- Ensure you have the Sinclair Driver and Caseholder system ready for use.
- Select the appropriate Sinclair Stainless Shell Holder for your cartridge type.
- Attach the shell holder securely to the Universal Caseholder.

2. Using the Caseholder:

- Insert the case into the shell holder and ensure it is firmly held in place.
- Attach the driver to the Universal Caseholder if it is not already connected.
- If using a power screwdriver or lowspeed drill motor, insert the driver's hex shaft into the tool.
- Begin neck turning or cleaning by slowly applying pressure and maintaining control of the operation.

3. PostUse:

- After use, carefully remove the case from the shell holder.
- Clean the caseholder and driver to remove any debris or residue.
- Store the product in a dry, safe place away from children.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste.
- If the product is damaged beyond repair, consider recycling materials where possible.

Contact Information for Further Support

For any questions or concerns regarding the NECK TURNING CASEHOLDERS NECK TURNING CASE HOLDER, please refer to the manufacturer's contact information provided in the product packaging or manual.

Thank you for prioritizing safety while using our product. Your attention to these guidelines helps ensure a safe and effective experience.
