

AUTO PRIME XR HAND PRIMING TOOL - LEE AUTO PRIME XR

[Reloading](#) > [Priming Tools](#) > [Hand Tools](#)

The Lee Auto-Prime hand held priming tool has been recently upgraded to handle all of your favorite brands of primers. The new Auto-Prime XR priming tool features a patent pending elevator pin which separates a single primer from all others within the storage tray, reducing the chances of a chain fire. Just like the original Lee Auto-Prime, the Auto-Prime XR still has that good primer seating “feel” and is an excellent tool for a beginning or high volume handloader. Other upgrades include an ergonomic, unbreakable lever along with large and small primer trays with slide-on covers. The primer trays are now square in design to easily accept all brands of primer boxes. The primer trays enable you to flip your primers upright for the proper orientation. Utilizes Lee Auto-Prime shellholders (sold separately).

Safety Instruction Guide for AUTO PRIME XR Hand Priming Tool

Introduction

Thank you for choosing the AUTO PRIME XR Hand Priming Tool by Lee Precision. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and follow all instructions carefully to avoid potential hazards.

General Safety Guidelines

- Always use the AUTO PRIME XR in a welllit area to ensure visibility while priming.
- Keep the tool out of reach of children and pets when not in use.
- Ensure the work area is clean and free from distractions to maintain focus during use.
- Regularly inspect the tool for any signs of damage or wear before each use.
- Do not use the tool for any purpose other than its intended use as a hand priming tool.
- If you experience any discomfort or pain while using the tool, stop immediately and consult a professional.

Specific Safety Precautions for Use

- Handle primers with care to prevent accidental ignition.
- Always wear safety glasses to protect your eyes from debris or accidental primer discharge.
- Use the tool only with Lee AutoPrime shellholders, as other shellholders may not fit properly and could cause malfunctions.
- Do not attempt to modify or repair the tool yourself. Contact a qualified technician for repairs.
- Keep fingers clear of the primer seating area while operating the tool to avoid injury.
- Store primers in a cool, dry place away from heat sources or open flames.

Instructions for Installation and Usage

1. Preparation:

- Gather your primers, shellholder, and the AUTO PRIME XR tool.
- Ensure that the tool is clean and free from debris.

2. Loading the Primer Tray:

- Open the primer tray cover and fill the tray with the desired primers.
- Make sure the primers are seated correctly in the tray for proper operation.

3. Setting Up the Tool:

- Attach the appropriate Lee AutoPrime shellholder to the tool.
- Ensure that the shellholder is securely fastened.

4. Priming Process:

- Position the case in the shellholder.
- Use the ergonomic lever to apply pressure and seat the primer.
- You should feel a slight resistance when the primer is seated correctly.

5. Finishing Up:

- After use, remove the case and check that the primer has been seated properly.
- Store the AUTO PRIME XR tool and primers in a safe location.

Disposal Instructions

- Dispose of any damaged or wornout components according to local regulations.
- Do not throw primers or the tool in regular trash. Check with local authorities for proper disposal methods for hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the AUTO PRIME XR Hand Priming Tool, please refer to the manufacturer's website or contact your local retailer for assistance.

Remember to stay informed about product recalls and safety updates through the EU's Safety Gate platform. Your safety is our priority. Thank you for using the AUTO PRIME XR Hand Priming Tool.
