

# SINCLAIR HEX STYLE BULLET COMPARATORS - HEX STYLE BULLET COMPARATOR #1 22-30 CALIBER

[Reloading](#) > [Measuring Tools](#) > [Bullet Comparators](#)

We have been making these hex style bullet comparators for over 20 years, and believe we make the most accurate tools available. The holes in the Sinclair Bullet Comparators are cut with throating reamers to accurately duplicate the actual throat of a rifle. The comparator is used with calipers, and allows the reloader to accurately measure the length from the major diameter of the bullet to the case head. It also enables you to make accurate seating depth changes to your bullet seater. The Sinclair Comparator does not attach to your calipers, so your calipers are free for other measurements. Machined from stainless steel. There are two different models of Sinclair Comparators to cover bullets calibers from .17 caliber to .338. The first model (09-600) features holes bored and throated for .224, 6mm, .257, 6.5mm (.264), 7mm, and 308. The second model (09-700) has holes throated for .172, .204, .224, .270, .308, and .338 caliber.

## Attributes

- Name: [HEX STYLE BULLET COMPARATOR #1 22-30 CALIBER](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749002942
- Mfr. No.:
- Caliber: 22 Caliber (.223-.224), 243/6 mm (.243), 25 Caliber (.257), 264/6.5 mm (.264), 284/7 mm (.284), 30 Caliber (.308)
- Delivery weight: 0.023kg
- Shipping height: 15mm
- Shipping width: 84mm
- Shipping length: 132mm
- UPC: 050806111554

## Safety Instructions

### Introduction

Thank you for choosing the Sinclair Hex Style Bullet Comparators. We are committed to providing you with highquality tools for accurate measurement in reloading. This guide outlines important safety information and instructions to ensure the safe use of this product. Please read this document carefully before using the product.

### General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle the bullet comparator with care to avoid injury or damage.
- Keep the bullet comparator out of reach of children and vulnerable individuals.
- Inspect the bullet comparator for any signs of damage before use. Do not use if damaged.
- Store the bullet comparator in a safe, dry place when not in use.
- Follow all local laws and regulations regarding the use of reloading tools.

### Specific Safety Precautions for Use

- Use the comparator only with compatible calipers to ensure accurate measurements.
- Avoid using excessive force when measuring to prevent damage to the comparator or calipers.
- Ensure that your workspace is clean and free of distractions while using the comparator.
- Always wear appropriate safety gear, such as safety glasses, when working with reloading tools.
- Be aware of your surroundings and ensure that no one is in close proximity when using the comparator.

### Instructions for Installation and Usage

#### 1. Preparation:

- Gather all necessary tools, including calipers and the Sinclair Hex Style Bullet Comparator.
- Ensure the calipers are clean and calibrated before use.

#### 2. Using the Comparator:

- Select the appropriate model of the Sinclair Comparator based on the caliber of the bullet you are measuring.
- Insert the bullet into the comparator hole, ensuring it fits snugly.
- Use the calipers to measure the length from the major diameter of the bullet to the case head.
- Record the measurements for your reloading process.

#### 3. Making Adjustments:

- Use the measurements obtained to make precise seating depth changes to your bullet seater.
- Always doublecheck measurements before making any adjustments to ensure accuracy.

#### 4. PostUse Care:

- Clean the comparator after each use to remove any debris or residue.
- Store the comparator in its designated storage area to prevent damage.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste. Check for recycling or hazardous waste disposal options in your area.

## **Contact Information for Further Support**

For any safety inquiries or additional support, please refer to the contact details provided with your product packaging or visit the manufacturer's official website.

By following these guidelines, you can ensure a safe and effective experience with the Sinclair Hex Style Bullet Comparators. Thank you for your attention to safety and for choosing our product.
