

# NECK REAMER - FORSTER PRODUCTS, INC. 0.3110" INSIDE NECK REAMER

[Reloading](#) > [Case Preparation](#) > [Case Neck Reamers](#)

Forster Inside Neck reamers are designed to remove excess brass from the inside of case neck walls. The Forster Neck Reamer is manufactured from high grade, wear-resistant tool steel and ground .0025" to .003" over the maximum bullet diameter. Constructed with a staggered tooth design so that brass is cut smoothly and without chatter. Neck reaming should only be performed after the cases have been fired with a full load and before the neck or full length sizing operation. Wall thickness can be measured with a tubing micrometer, but a simpler test for excess brass in the neck area is to slide a bullet into a fired, unsized case neck. If you feel interference, the neck should be reamed or outside neck turned.

Inside Neck Reamer .308 Bullet Diameter (.310-.3105)

Wildcat conversions using the .224" bullet with .2200" inside neck diameter and .243" bullet with .2390" inside neck diameter, Forster offers inside neck reamers for these sizes. Use after the CASE sizing operation.

## Attributes

- Name: [FORSTER PRODUCTS, INC. 0.3110" INSIDE NECK REAMER](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 749003030
- Mfr. No.: NR1308
- Caliber: 30 Caliber (.308)
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 757253004940

# Safety Instruction Guide for NECK REAMER

## Introduction

Thank you for choosing the Inside Neck Reamer .308 Bullet Diameter (.310.3105) by Forster Products, Inc. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and understand all guidelines before use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the reamer for any signs of damage or wear before use.
- Keep the reamer out of the reach of children and vulnerable individuals.
- Use appropriate personal protective equipment (PPE), such as safety goggles and gloves.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the reamer in a wellventilated area to avoid inhaling any debris.
- Do not exceed the recommended bullet diameter specifications.
- Avoid using excessive force when reaming to prevent tool breakage or injury.
- Store the reamer in a secure location when not in use to prevent accidents.
- Ensure that all tools and accessories are compatible with the reamer to avoid malfunction.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including the Inside Neck Reamer and a compatible case holder.
- Ensure your workspace is clean and organized.

### 2. Installation:

- Secure the case holder in a stable position.
- Insert the Inside Neck Reamer into the holder, ensuring it is firmly attached.

### 3. Usage:

- Place the case neck into the reamer.
- Rotate the reamer gently to begin the reaming process.
- Maintain a steady and controlled motion to achieve the desired neck diameter.
- Periodically check the progress to ensure the desired specifications are met.

### 4. PostUse:

- Clean the reamer thoroughly to remove any debris or residue.
- Store the reamer in its designated case or holder to protect it from damage.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Ensure that any waste materials are discarded responsibly to minimize environmental impact.

## **Contact Information for Further Support**

For any inquiries regarding safety or product use, please refer to the contact information provided with your product packaging or visit the manufacturer's website for additional resources.

Thank you for your attention to these safety instructions. Your safety is our priority.
