HANDGUN TAPER CRIMP DIES Safety Instruction Guide

Introduction

Thank you for choosing the Redding Taper Crimp Die for your reloading needs. This product is designed specifically for handgun cartridges that headspace on the case mouth, making it an essential tool for achieving uniform crimping for cartridges like the 357 Magnum and 38 Special. This guide provides important safety information to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the entire instruction manual before using the product.
- Keep the product out of reach of children and unauthorized users.
- Inspect the product for any visible damage or defects before use. Do not use if damaged.
- Use the product only for its intended purpose as specified in this manual.
- Follow all local laws and regulations regarding the use of reloading equipment and ammunition.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the die is correctly installed in your reloading press before use.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when reloading ammunition.
- Keep your work area clean and organized to prevent accidents.
- Do not overload cartridges beyond recommended specifications.
- Always doublecheck measurements and adjustments before proceeding with reloading.
- Store all reloading components, including dies, securely and away from children.

Instructions for Installation and Usage

1. Installation of the Taper Crimp Die:

- Ensure your reloading press is securely mounted and stable.
- Thread the taper crimp die into the press according to the manufacturer's specifications.
- Adjust the die to achieve the desired crimp by raising and lowering the ram of the press.

2. Usage Instructions:

- Prepare your cases by cleaning and inspecting them for defects.
- Charge each case with the appropriate amount of powder as per your reloading recipe.
- Insert the bullet into the case mouth and raise the ram to crimp the bullet using the taper crimp die.
- Inspect each completed round for proper crimp and overall quality before use.

3. PostUse Care:

- Clean the die after each use to prevent residue buildup.
- Store the die in a dry, secure location away from moisture and heat.

Disposal Instructions

- Dispose of any defective or damaged dies in accordance with local regulations.
- Do not dispose of ammunition components in regular household waste. Follow local guidelines for hazardous waste disposal.

Contact Information for Further Support

For further assistance or inquiries regarding safety, please contact your local distributor or refer to the manufacturer's website for more information regarding product support and safety inquiries.

By following these guidelines, you can ensure a safe and effective reloading experience with the Redding Taper Crimp Die. Thank you for prioritizing safety in your reloading practices.
