

WILSON CASE GAGE - 300 WSM CASE GAGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Regular Style: This one piece gage will check overall length to indicate a need for trimming and datum to head length to assure correct headspace to prevent over sizing. Adjustable Style: For belted mags. While the belt provides support for proper heads space, the life of the case will drastically shorten unless resizing is held to a minimum at the shoulder.
SPECIAL ORDER CASE GAGES ARE AVAILABLE---MEASURE CASE LENGTH ONLY

Attributes

- Name: [300 WSM CASE GAGE](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749003971

WILSON CASE GAGE 300 WSM CASE GAGE Safety Instruction Guide

Introduction

Thank you for choosing the WILSON CASE GAGE 300 WSM CASE GAGE. This guide provides important safety information and instructions for the proper use of this product. Please read this guide carefully to ensure safe and effective use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this manual.
- Keep the gage out of reach of children and vulnerable individuals to prevent accidental injury.
- Always inspect the gage for damage before use. Do not use if damaged.
- Follow all manufacturer instructions to avoid potential hazards associated with improper use.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Handling:** Always handle the gage with care. Avoid dropping or mishandling the tool to prevent damage.
- **Measurement Accuracy:** Ensure that the gage is properly calibrated before use. Incorrect measurements can lead to safety hazards in reloading.
- **Use of Calipers:** When measuring headspace, ensure that calipers are in good condition and correctly set to avoid miscalculations.
- **Resizing:** Be cautious when resizing brass. Oversizing can lead to dangerous malfunctions in firearms.
- **Storage:** Store the gage in a dry and safe location when not in use to prevent deterioration and ensure longevity.

Instructions for Installation and Usage

1. Setting Up the Gage:

- Ensure the gage is clean and free from debris.
- Place the gage on a stable, flat surface for accurate measurements.

2. Using the Gage:

- For the Regular Style:
 - Insert the cartridge case into the gage to check overall length.
 - If the case exceeds the maximum length, trimming is necessary.
- For the Adjustable Style:
 - Use for belted magnum cartridges.
 - Ensure the belt is aligned properly to maintain headspace.
 - Resize only at the shoulder to prolong the life of the case.

3. Measuring Headspace:

- Use a caliper to measure the headspace of fired cases.
- Compare measurements to manufacturer specifications to ensure safety.

4. PostUse Care:

- Clean the gage after each use to maintain accuracy and prevent corrosion.

- Store in a protective case or designated area to avoid damage.

Disposal Instructions

- Dispose of the gage and any associated materials in accordance with local regulations.
- Do not dispose of in regular household waste if the gage is damaged or contains hazardous materials.

Contact Information for Further Support

For any inquiries or concerns regarding the WILSON CASE GAGE 300 WSM CASE GAGE, please refer to the manufacturer's website or customer service for assistance.

By following these safety instructions, you can ensure the safe and effective use of the WILSON CASE GAGE 300 WSM CASE GAGE. Thank you for your attention to safety!
