

NECK SIZER DIES - RCBS NECK SIZER DIE 223 REM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Neck sizing dies size only the case neck of the cartridge - not the shoulder or the case body. Use neck dies when cases are fired in the same rifle and a close cartridge case to chamber fit is desired. The neck die will size the neck, decap the spent primer, then size for correct bullet tension with the expander ball. Neck dies come in an RCBS plastic die box and will fit all 7/8 to 14 reloading presses.

Attributes

- Name: [RCBS NECK SIZER DIE 223 REM](#)

NECK SIZER DIES RCBS NECK SIZER DIE 223 REM

Safety Instruction Guide

Introduction

Thank you for choosing the NECK SIZER DIES RCBS NECK SIZER DIE 223 REM. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your neck sizing dies. Please read this document carefully before use.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, such as safety glasses and gloves, when handling reloading equipment.
- Keep the workspace clean and organized to prevent accidents.
- Store the dies in a safe, dry place away from children and pets.
- Regularly inspect the dies for any signs of wear or damage before use.
- Be aware of your surroundings and avoid distractions while using the product.
- Follow all local laws and regulations regarding ammunition and reloading practices.

Specific Safety Precautions for Use

- Use neck sizing dies only with the appropriate caliber (223 Remington) to avoid mishaps.
- Ensure that the die is securely fastened to the reloading press before use.
- Do not exceed the recommended load specifications for your cartridges.
- Never attempt to modify the dies or use them for purposes other than intended.
- If you experience any resistance while sizing, stop immediately and check for obstructions.
- Always decap spent primers in a well-ventilated area to avoid inhaling any contaminants.
- Dispose of spent primers and any other waste materials in accordance with local regulations.

Instructions for Installation and Usage

1. Installation:

- Remove the neck sizing die from its packaging.
- Ensure that the die threads are clean and free of debris.
- Screw the die into the reloading press until it is snug. Do not overtighten.
- Adjust the die height according to the manufacturer's specifications for proper sizing.

2. Usage:

- Place a fired casing into the shell holder of the reloading press.
- Pull the handle to raise the shell holder and bring the casing into contact with the die.
- Continue to pull the handle until the casing is fully sized.
- Lower the handle to remove the casing from the die.
- Repeat the process for additional casings as needed.
- After sizing, check the neck tension and ensure it meets your specifications.

Disposal Instructions

- Dispose of any damaged or worn dies in a manner that complies with local regulations.
- Properly dispose of spent primers and other reloading waste by following local waste management guidelines.

- Recycle packaging materials where possible.

Contact Information for Further Support

For any questions or concerns regarding the NECK SIZER DIES RCBS NECK SIZER DIE 223 REM, please refer to the product packaging for relevant contact information. Always ensure you have the latest safety information and updates regarding your product.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your NECK SIZER DIES RCBS NECK SIZER DIE 223 REM. Always prioritize safety and compliance with regulations to enjoy your reloading activities responsibly.
