

WILSON NECK REAMER - L.E. WILSON 270 CALIBER (0.2795"-0.280") INSIDE NECK REAMER

[Reloading](#) > [Case Preparation](#) > [Case Neck Reamers](#)

Thick necks can cause high chamber pressures and erratic shooting. Wilson neck reamers remove excess neck material to insure adequate clearance exists between the case neck and the chamber. Also, these reamers can be used when forming wildcats from a parent case. Reamers are used in the Wilson trimmer in place of the trimmer cutter. Standard reamers are sized for use on fired, unsized cases and measure .0025" - .003" larger than bullet diameter. Custom size reamers can be ground (allow 6-8 week delivery).

WILSON NECK REAMER L.E. WILSON 270 CALIBER

SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the WILSON NECK REAMER L.E. WILSON 270 CALIBER (0.2795"0.280"). This tool is designed to safely and effectively remove excess neck material from cartridge cases, ensuring proper chamber clearance and enhancing shooting accuracy. Please read this safety instruction guide thoroughly to ensure the safe use of this product.

General Safety Guidelines

- Always ensure the product is used in accordance with the manufacturer's instructions.
- Keep the reamer out of reach of children and unauthorized users.
- Inspect the reamer for any damage before use; do not use if damaged.
- Use protective eyewear when operating the reamer to prevent injury from metal shavings.
- Ensure the work area is clean and free from distractions while using the reamer.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the reamer only on fired, unsized cases to prevent excessive wear and ensure proper function.
- Avoid using excessive force when reaming; let the tool do the work to prevent damage.
- Always wear gloves to protect your hands from sharp edges and metal shavings.
- Do not modify the reamer in any way; alterations can affect safety and performance.
- Ensure that the reamer is securely attached to the Wilson trimmer before use.
- Be aware of the reamer's cutting action; keep fingers and hands away from the cutting area.

Instructions for Installation and Usage

1. Installation:

- Ensure the Wilson trimmer is powered off and unplugged before installation.
- Remove the trimmer cutter from the trimmer.
- Insert the WILSON NECK REAMER into the trimmer's cutter holder.
- Secure the reamer in place according to the trimmer's instructions.

2. Usage:

- Select the appropriate case to be reamed; ensure it is a fired, unsized case.
- Turn on the trimmer and allow it to reach full speed before introducing the case.
- Gradually feed the case into the reamer, ensuring a steady and controlled motion.
- Monitor the reaming process and stop immediately if any unusual resistance is felt.
- Once reaming is complete, turn off the trimmer and carefully remove the case.

Disposal Instructions

- Dispose of any metal shavings and debris safely in accordance with local regulations.
- Do not dispose of the reamer in regular household waste; check for local recycling programs for metal tools.
- If the reamer is no longer usable, contact a local waste management facility for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or productrelated questions, please refer to the manufacturer's website or contact their customer service.

By adhering to these safety instructions, you can ensure a safe and effective experience with the WILSON NECK REAMER L.E. WILSON 270 CALIBER. Thank you for your attention to these important safety measures.
