

# FULL LENGTH SIZING DIES - FORSTER PRODUCTS, INC. 7MM-08 REMINGTON FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die.

# Safety Instruction Guide for Forster Full Length Sizing Dies

## Introduction

Thank you for choosing Forster Full Length Sizing Dies. These dies are designed to provide you with highquality reloading capabilities. To ensure your safety and the optimal performance of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always handle reloading equipment with care and ensure a clean working environment.
- Keep the dies and all related tools out of reach of children and vulnerable individuals.
- Inspect the dies and equipment regularly for wear or damage.
- Use protective eyewear and gloves when reloading to prevent injury.
- Familiarize yourself with the reloading process before beginning.

## Specific Safety Precautions for Use

- Ensure that the die is securely mounted in your reloading press before use.
- Do not exceed the recommended load specifications for the cartridges being used.
- Always check that the die is clean and free of debris before starting the reloading process.
- Avoid using excessive force when resizing cases to prevent damage to the die or the cases.
- Be aware of the potential for lead exposure when handling ammunition components; wash hands thoroughly after use.

## Instructions for Installation and Usage

### 1. Installation

- Remove the die from its packaging and inspect it for any visible damage.
- Securely attach the die to your reloading press according to the manufacturer's instructions.
- Adjust the die height to ensure proper alignment with the press and the cartridge cases.

### 2. Usage

- Insert the cartridge case into the die and ensure it is seated properly.
- Use the EZ Out Expander button during the neck expanding operation to maintain case neck concentricity.
- Operate the press smoothly and steadily to resize the case without excessive force.
- After resizing, remove the case from the die and inspect it for any defects.

## Disposal Instructions

- Dispose of any damaged or worn dies and components in accordance with local regulations.
- Do not throw dies in regular waste; check for recycling programs that accept metal components.
- Ensure all packaging materials are disposed of responsibly.

## Contact Information for Further Support

For any inquiries regarding safety or product performance, please reach out to the designated EU contact point associated with this product.
