

FULL LENGTH SIZING DIES - FORSTER PRODUCTS, INC. 260 REMINGTON FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die.

Attributes

- Name: [FORSTER PRODUCTS, INC. 260 REMINGTON FULL LENGTH SIZING DIE](#)

Safety Instruction Guide for Full Length Sizing Dies

Introduction

Thank you for choosing the Forster Full Length Sizing Die for your reloading needs. This guide provides important safety instructions and precautions to ensure the safe and effective use of this product. Please read through all sections carefully to familiarize yourself with the safety measures and operational guidelines.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the Full Length Sizing Die, which is designed for reloading ammunition.
- **Enhanced Recalls:** Be aware that if any safety issues arise, standardized recall notices will be issued.
- **Online Shopping:** When purchasing online, ensure that the retailer complies with safety requirements.
- **Special Consumer Focus:** Extra precautions should be taken if the user is inexperienced or if children are present.
- **EU Contact Point:** For any safety inquiries, consult the product documentation for the appropriate EU contact.
- **Rapid Alerts:** Stay informed about any updates on unsafe products through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using the sizing die.
- Ensure that the work area is welllit and free from distractions.
- Keep the die and all reloading components out of reach of children and pets.
- Do not exceed the recommended loads as specified in reliable reloading manuals.
- Inspect the die regularly for any signs of wear or damage before each use.
- Only use the die with compatible cartridges as specified in the product information.
- Do not attempt to modify the die or use it for purposes other than intended.

Instructions for Installation and Usage

1. Installation:

- Securely mount the sizing die in a reloading press according to the manufacturer's instructions.
- Ensure the die is tightened properly to avoid any movement during operation.

2. Usage:

- Prepare the cases by cleaning and inspecting them before resizing.
- Adjust the die according to the desired sizing specifications, ensuring it is set correctly for the cartridge being used.
- Place a case into the press and operate the handle smoothly to resize the case.
- After resizing, remove the case and inspect it to ensure it meets specifications.
- Always clean the die after use to maintain its condition and performance.

Disposal Instructions

- Dispose of any damaged or wornout components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check for local recycling programs or hazardous waste disposal sites.

Contact Information for Further Support

For any inquiries regarding the safety and usage of the Forster Full Length Sizing Die, please refer to the product documentation for the appropriate contact information.

By following these guidelines and precautions, you can ensure a safe and effective reloading experience. Always prioritize safety and stay informed about best practices in ammunition reloading.
