

NECK SIZING DIES - REDDING NECK SIZING DIE 30 REM AR

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

Safety Instruction Guide for Redding Neck Sizing Die 30 Rem AR

Introduction

Thank you for choosing the Redding Neck Sizing Die 30 Rem AR. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. It complies with the EU General Product Safety Regulation (GPSR) to protect consumers and enhance product safety.

General Safety Guidelines

- Ensure safe handling and use of the neck sizing die to prevent injury.
- Be aware of potential hazards associated with reloading equipment.
- Follow all safety instructions provided in this guide.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for updates on product safety and recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear safety glasses when using reloading equipment to protect your eyes from debris.
- Handle all reloading components with care to avoid accidental discharge or injury.
- Ensure that your workspace is clean, dry, and free from distractions when using the neck sizing die.
- Do not interchange fired cases between different rifles, as this can lead to safety issues.
- Inspect the die for any signs of damage or wear before each use. Do not use if damaged.
- Follow the manufacturer's recommendations for the appropriate cartridges and usage.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is securely mounted and stable.
- Insert the Redding Neck Sizing Die into the reloading press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during operation.

2. Usage:

- Select the appropriate 30 Remington AR cartridge for neck sizing.
- Place the fired case into the shell holder of the reloading press.
- Slowly raise the ram to engage the neck sizing die with the case neck.
- Apply consistent pressure until the die has sized the neck properly.
- Lower the ram and remove the sized case from the shell holder.
- Inspect the sized neck for proper dimensions and consistency.

3. PostUsage:

- Clean the die after each use to remove any residue or debris.
- Store the die in a dry place to prevent rust and corrosion.
- Regularly check the die for any signs of wear or damage.

Disposal Instructions

- Dispose of any damaged or worn reloading components in accordance with local regulations.
- Do not throw away the neck sizing die in regular household waste if it is still functional; consider donating it or recycling it according to local guidelines.

Contact Information for Further Support

For any safety inquiries or additional information regarding the Redding Neck Sizing Die, please refer to the manufacturer's contact details provided on the product packaging or official website.

By following this safety instruction guide, you can ensure a safe and effective reloading experience with your Redding Neck Sizing Die 30 Rem AR. Always prioritize safety and stay informed about product updates.
