

NECK SIZING DIES - REDDING 7MM TCU NECK SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

Attributes

- Name: [REDDING 7MM TCU NECK SIZING DIE](#)

Safety Instruction Guide for NECK SIZING DIES

REDDING 7MM TCU NECK SIZING DIE

Introduction

Thank you for choosing the Redding Neck Sizing Die for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read through the entire document carefully before use.

General Safety Guidelines

- Ensure that the product is used for its intended purpose only.
- Always handle tools and dies with care to prevent injury.
- Keep the dies and all reloading equipment out of reach of children and vulnerable individuals.
- Regularly inspect the dies for wear and damage before use.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Do not interchange fired cases between different rifles, as this may lead to dangerous malfunctions.
- Always wear appropriate safety gear, such as safety glasses, when reloading.
- Ensure that your workspace is clean and organized to prevent accidents.
- Be aware of the potential for brass shavings and other debris when resizing cases; clean your workspace regularly.
- Avoid using excessive force when resizing cases, as this can damage the die and lead to inaccurate sizing.

Instructions for Installation and Usage

1. Setup

- Ensure that your reloading press is securely mounted and stable.
- Clean the die and remove any protective oil before use.

2. Installing the Die

- Thread the neck sizing die into the reloading press according to the manufacturer's instructions.
- Tighten the die securely, ensuring it is aligned with the press.

3. Resizing Cases

- Insert the fired case into the shell holder of the press.
- Raise the ram to bring the case into contact with the die.
- Apply smooth, even pressure to resize the neck of the case.
- Lower the ram and remove the resized case.

4. PostUse Care

- Clean the die after each use to remove any brass residue and ensure optimal performance.
- Store the die in a safe, dry place when not in use.

Disposal Instructions

- Dispose of any damaged or worn dies according to local regulations.
- Recycle materials where possible, following your local recycling guidelines.

Contact Information for Further Support

For any safety inquiries or additional support, please contact the manufacturer or refer to their official website for assistance.

By following these guidelines, you can ensure a safe and effective reloading experience with the Redding Neck Sizing Die. Thank you for your attention to safety, and happy reloading!
