

# NT-1000 STANDARD NECK TURNING TOOL - SINCLAIR INTERNATIONAL STANDARD NECK TURNING TOOL ONLY, NT-1000

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Neck Turning Tools](#)

The Sinclair Model 1000 will uniform the wall thickness of your necks providing consistent bullet grip from case to case and allow the case neck walls to expand uniformly under pressure. This will help improve the consistency of each round and enhance your groups down range. Our standard neck turning tool has served the needs of thousands of handloaders for over two decades. This tool comes complete with our stainless steel universal handle (holds 22 Hornet up to the new magnums) and anodized aluminum neck turner body. The neck turning cutter is made from hand stoned high-speed tool steel and will cut literally thousands of cases before needing replacement. Neck turning tools require the use of Sinclair mandrels which are sold separately or as part of a complete neck turning tool kit.

# Safety Instruction Guide for NT1000 Standard Neck Turning Tool

## Introduction

Thank you for choosing the NT1000 Standard Neck Turning Tool by Sinclair International. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this product. Please read and understand all instructions before using the tool.

## General Safety Guidelines

- Ensure safe use of the NT1000 by following all safety instructions.
- Always use this tool in accordance with the manufacturer's guidelines to avoid risks.
- Be aware of potential hazards, including sharp edges and moving parts.
- Keep the tool out of reach of children and vulnerable individuals.
- Regularly check for wear and damage to ensure the tool remains safe for use.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the tool.
- Ensure your work area is clean and welllit to prevent accidents.
- Do not use the tool if you are tired, under the influence of drugs or alcohol, or distracted.
- Keep hands and other body parts away from the cutting area during operation.
- Use the tool only for its intended purpose; do not attempt to modify or adapt it for other uses.
- Follow all instructions for the use of Sinclair mandrels, as they are essential for safe operation.

## Instructions for Installation and Usage

### 1. Setup:

- Ensure the work surface is stable and secure.
- Attach the stainless steel universal handle to the neck turner body as per the manufacturer's instructions.
- Select the appropriate Sinclair mandrel for the case you intend to work with.

### 2. Using the Tool:

- Insert the case neck into the mandrel securely.
- Adjust the cutter to the desired depth, ensuring it is locked in place.
- Turn the handle smoothly and steadily to begin the neck turning process.
- Regularly check the case neck for uniform thickness during operation.
- Once finished, carefully remove the case from the mandrel.

### 3. Maintenance:

- Clean the tool after each use to prevent buildup of debris.
- Inspect the cutting edge regularly for wear; replace if necessary.
- Store the tool in a dry place, away from moisture and extreme temperatures.

## **Disposal Instructions**

- Dispose of the NT1000 Standard Neck Turning Tool in accordance with local regulations.
- If the tool is no longer usable, consider recycling metal components where possible.
- Do not dispose of the tool in household waste.

## **Contact Information for Further Support**

For any safety inquiries or additional support regarding the NT1000 Standard Neck Turning Tool, please refer to the manufacturer's contact information provided with the product packaging or on the official website.

Thank you for prioritizing safety and for your commitment to responsible use of the NT1000 Standard Neck Turning Tool.
