

COMPETITION HANDGUN BULLET SEATER DIES - REDDING

COMPETITION SEATER DIE 40 S&W, 10MM AUTO

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

These seater dies have a precision fitting bullet seating stem which is spring loaded. As the bullet and case move up into the seater positive alignment is insured. The micrometer adjustment on the seating stem simplifies setting and recording bullet seating depth. The micrometer is calibrated in .001 inch increments, is infinitely adjustable, and has a zero set feature. This seater has no crimping features. Crimping should be done with a separate Redding Profile Crimp or Taper Crimp die. The Competition seating die for the handgun and straight wall cases is compatible with most progressive reloading presses.

Attributes

- Name: [REDDING COMPETITION SEATER DIE 40 S&W, 10MM AUTO](#)

Safety Instruction Guide for Redding Competition Handgun Seater Dies

Introduction

Thank you for choosing the Redding Competition Handgun Seater Dies for your reloading needs. This guide provides important safety information and instructions for the proper use of this product. Please read this guide carefully to ensure safe and effective operation.

General Safety Guidelines

- Ensure that the workspace is clean, welllit, and free from distractions.
- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Keep all reloading components, including powders and primers, out of reach of children and unauthorized users.
- Store the seater dies in a secure location when not in use.
- Be aware of the specific cartridge type you are using (10 mm Auto or 40 S&W) to avoid incorrect loading.
- Follow all local and national regulations regarding ammunition reloading and usage.
- Regularly inspect your reloading equipment for wear and damage.

Specific Safety Precautions for Use

- Do not exceed recommended load limits as specified in reliable reloading manuals.
- Ensure that the bullet seating stem is properly adjusted before use to avoid improper seating depths.
- Avoid using the seater die for crimping; use a separate Redding Profile Crimp or Taper Crimp die for that purpose.
- Do not attempt to modify the seater die or its components.
- In case of a malfunction or if the die does not perform as expected, stop using it immediately and consult a qualified technician.

Instructions for Installation and Usage

1. Installation:

- Verify that your reloading press is compatible with the Redding Competition Seater Die.
- Clean the die and ensure that it is free from debris.
- Install the die into your reloading press according to the manufacturer's instructions.
- Set the die to the desired depth using the micrometer adjustment feature, ensuring it is calibrated correctly.

2. Usage:

- Insert a bullet into the case mouth and place it in the shell holder of the press.
- Activate the press to raise the case into the seater die.
- Monitor the bullet seating depth using the micrometer adjustment and make any necessary adjustments.
- After seating, remove the completed cartridge and inspect it for proper seating depth.
- Store the completed ammunition in a safe and secure manner.

Disposal Instructions

- Dispose of any unused or damaged reloading components in accordance with local regulations.
- Do not dispose of hazardous materials, such as primers or powders, in regular trash.
- Consider contacting local hazardous waste disposal facilities for safe disposal options.

Contact Information for Further Support

For any questions or concerns regarding the Redding Competition Handgun Seater Dies, please refer to the manufacturer's website or customer support resources. It is important to ensure that you have access to reliable information should any issues arise.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your Redding Competition Handgun Seater Dies. Always prioritize safety and adhere to best practices when handling reloading equipment. Thank you for your attention to these important safety measures.
