

CUSTOM TYPE S NECK DIE - 6MM DASHER - REDDING TYPE S BUSHING NECK DIE 6MM DASHER

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bushing Neck Sizing Dies utilize interchangeable bushings for precise case neck resizing, allowing the reloader to control the amount of neck sizing on their cases. A reloader can eliminate oversizing their brass by selecting a bushing correctly sized for his cases and chamber. The decapping rod comes with a standard expander ball or a decapping pin retainer for sizing without the expander call installed. Adjustable decapping rod allows positioning of the bushing to resize only the portion of the neck desired. Dies supplied without bushings.

Attributes

CUSTOM TYPE S NECK DIE 6MM DASHER REDDING

TYPE S BUSHING NECK DIE 6MM DASHER Safety Instruction Guide

Introduction

Thank you for choosing the CUSTOM TYPE S NECK DIE 6MM DASHER from REDDING. This product is designed to provide precise case neck resizing for your reloading needs. To ensure safe use and compliance with the EU General Product Safety Regulation (GPSR), please read this safety instruction guide carefully.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the work area is clean, dry, and well lit.
- Keep the die and all components out of reach of children and vulnerable individuals.
- Use the die only for its intended purpose as described in this guide.
- Regularly inspect the die for any signs of wear or damage before each use.
- Dispose of any damaged or worn components properly to prevent accidents.

Specific Safety Precautions for Use

- When using the die, always wear appropriate safety gear, including safety glasses and gloves.
- Ensure that the bushing is correctly sized for your cases to avoid oversizing.
- Do not attempt to modify the die or its components in any way.
- Always follow the manufacturer's recommendations for usage and maintenance.
- If you experience any issues while using the die, stop immediately and consult the troubleshooting section of the product manual or contact support.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is compatible with the CUSTOM TYPE S NECK DIE.
- Securely attach the die to the press following the manufacturer's instructions.
- Insert the appropriate bushing into the die according to the specifications for your cases.
- Adjust the decapping rod to the desired position for neck resizing.

2. Usage

- Place a case into the shell holder of the press.
- Slowly and steadily raise the ram to size the neck of the case.
- Check the sizing after each operation to ensure it meets your specifications.
- If using the decapping feature, ensure that the expander ball is correctly positioned or removed as needed.
- After use, clean the die and store it in a safe place to prevent damage.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the die or its components are damaged beyond repair, dispose of them safely to prevent injury.
- Do not throw away the die in regular household waste. Check local guidelines for proper disposal methods for metal products.

Contact Information for Further Support

For any questions or concerns regarding the CUSTOM TYPE S NECK DIE 6MM DASHER, please refer to the manufacturer's website or customer service for assistance.

Important Notice

- In the event of an unsafe product or an accident, report it to the relevant authorities and check for recall updates on the EU Safety Gate platform.
- This product is designed for adult use only. Keep out of reach of children.

By following these guidelines, you can ensure a safe and effective reloading experience with your CUSTOM TYPE S NECK DIE 6MM DASHER. Thank you for your attention to safety.
