With all of the benefits of the TSX, these bullets have a polymer tip that boosts B.C. and initiates expansion. The re-engineered nose cavity provides faster expansion and devastating terminal performance. Barnes' TSX Bullet offers all the deadly effectiveness of the time-proven X Bullet. Features include all-copper construction, no fragmentation, rapid expansion, 28% deeper penetration than lead-core bullets, and maximum weight retention. The TSX has proven to be one of the most accurate hunting bullets available—a fact countless shooters have confirmed. An exclusive feature of the TSX Bullet is multiple, precisely engineered rings cut into the bullet shank. These grooved rings act as relief valves as bullet metal flows under pressure while traveling down the bore. Instead of flowing from the front to the base of the bullet, the copper material expands into the grooves. This results in reduced pressures and less copper fouling. Reduced pressures mean the bullet can be safely loaded to higher velocities. The rings also alter barrel harmonics, greatly improving accuracy. Polymer Tip Boat Tail

## Introduction

Thank you for choosing the TIPPED TSX® 25 CAL (.308") POLYMER TIP BOAT TAIL RIFLE BULLETS. This guide provides essential safety information to ensure the safe use of these bullets. Please read and follow these instructions carefully to avoid any potential hazards.

## General Safety Guidelines

- Always treat all ammunition as if it is live and capable of firing.
- Store ammunition in a cool, dry place, away from direct sunlight and heat sources.
- Keep ammunition out of reach of children and unauthorized persons.
- Use only firearms that are specifically designed for the caliber of the bullet.
- Always wear appropriate safety gear, including eye and ear protection, when handling or firing ammunition.
- Do not exceed the recommended loads or specifications for your firearm.
- Regularly inspect your firearm and ammunition for signs of damage or wear.

## Specific Safety Precautions for Use

- Ensure that your firearm is in good working condition before use.
- Always check the barrel for obstructions before loading ammunition.
- Do not load ammunition in a firearm unless you are ready to fire.
- Avoid using damaged or corroded ammunition.
- If a bullet fails to fire, wait at least 30 seconds before attempting to remove it from the chamber to avoid accidental discharge.
- Do not mix different types or brands of ammunition.

## Instructions for Installation and Usage

### 1. Loading the Firearm:

- Open the action of your firearm.
- Insert the TIPPED TSX® bullets into the magazine or chamber as per the manufacturer's instructions for your firearm.
- Ensure the bullets are seated properly.

### 2. Firing the Firearm:

- Always ensure that the firearm is pointed in a safe direction.
- Take a stable shooting position and ensure a clear line of sight to your target.
- Pull the trigger smoothly to fire the bullet.

### 3. PostFiring Procedures:

- After firing, keep the firearm pointed in a safe direction.
- Open the action to eject any spent cartridges and inspect the chamber.
- Clean your firearm according to the manufacturer's recommendations after use.

## **Disposal Instructions**

- Dispose of any unused or damaged ammunition in accordance with local regulations.
- Do not throw ammunition in regular trash or incinerate it.
- Contact local authorities or hazardous waste disposal facilities for guidance on proper disposal methods.

## **Contact Information for Further Support**
