

MEC POWDER BUSHINGS - #31 POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at www.mecreloaders.com

MEC Powder Bushings #31 Safety Instruction Guide

Introduction

Thank you for choosing the MEC Powder Bushings #31. This guide provides essential safety instructions to ensure the safe use of this product. Please read this guide carefully to understand the necessary precautions and proper handling of the MEC Powder Bushings.

General Safety Guidelines

- Always use the powder bushings in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and free from distractions before starting your reloading process.
- Store powder bushings in a cool, dry place away from direct sunlight and moisture.
- Keep all reloading equipment out of reach of children and pets.
- Regularly inspect the powder bushings for signs of wear or damage before use.
- If you notice any defects, do not use the bushing and contact the manufacturer for guidance.

Specific Safety Precautions for Use

- Use a scale to weigh powder loads accurately. This is crucial for maintaining safety and ensuring the right performance of your rounds.
- Do not exceed the recommended powder loads for your specific bushing. Refer to the MEC powder charts for guidance on appropriate loads.
- Avoid mixing different types of powders in the same bushing to prevent unpredictable results.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when working with powders and reloading equipment.
- Ensure proper ventilation in your workspace to minimize inhalation of any powder particles.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the MEC Powder Bushing, scale, and powder.
- Ensure your reloading press is set up correctly and is stable.

2. Installation:

- Remove the existing bushing from your reloading press if applicable.
- Insert the MEC Powder Bushing #31 into the designated slot of your reloading press, ensuring it fits securely.
- Tighten any screws or fasteners to hold the bushing in place.

3. Usage:

- Measure the desired amount of powder using a scale.
- Pour the measured powder into the powder bushing.
- Cycle the reloading press to dispense the powder into the cartridge case.
- Repeat the process as necessary, checking the weight of the powder load each time for consistency.

4. PostUse:

- After completing your reloading session, clean the powder bushing to remove any residue.
- Store the bushing in a safe location to prevent damage.

Disposal Instructions

- Dispose of any unused or expired powders in accordance with local regulations.
- Do not dispose of powder bushings in regular household waste. Check with local waste management authorities for proper disposal methods.
- Ensure that all packaging materials are disposed of responsibly.

Contact Information for Further Support

For any safety inquiries or additional support regarding the MEC Powder Bushings, please refer to the manufacturer's website or contact your local distributor.

By following these guidelines, you can ensure a safe and effective reloading experience with the MEC Powder Bushings #31. Always prioritize safety and adhere to the recommended practices for the best results.
