

DUAL RING CARBIDE SIZING DIES - REDDING DUAL RING CARBIDE SIZING DIE, .357 MAGNUM

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

These tool steel sizing dies incorporate two separate Titanium carbide rings to properly resize straight-wall pistol cases. With a single stroke of the press, the top ring dimensionally sizes the case at the mouth, while the lower rings sizes the length of the case body without overworking the brass and shortening case life.

Attributes

- Name: [REDDING DUAL RING CARBIDE SIZING DIE, .357 MAGNUM](#)

DUAL RING CARBIDE SIZING DIES SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the DUAL RING CARBIDE SIZING DIES for your reloading needs. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the sizing dies.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using reloading equipment.
- Keep the workspace clean and organized to prevent accidents.
- Ensure that the reloading press is stable and securely mounted before operation.
- Do not use the sizing dies for any purpose other than intended.
- Store the dies in a dry, cool place away from direct sunlight and moisture.
- Regularly inspect the dies for wear or damage before each use.

Specific Safety Precautions for Use

- Ensure that the correct die is used for the specific cartridge (e.g., .357 Magnum).
- Do not exceed recommended loads as specified in reloading manuals.
- Avoid overworking the brass to maintain its integrity and prolong its lifespan.
- Do not attempt to resize cases that are excessively damaged or deformed.
- Keep hands and body clear of the press mechanism during operation.
- Ensure that all components of the reloading setup are compatible and in good condition.

Instructions for Installation and Usage

1. Installation

- Ensure the reloading press is securely mounted and stable.
- Select the appropriate die for your cartridge.
- Screw the sizing die into the press until it is snug, but do not overtighten.
- Adjust the die according to the manufacturer's instructions to achieve the desired sizing.

2. Usage

- Insert a clean, empty case into the press shell holder.
- Pull the handle of the press smoothly and steadily to resize the case.
- Inspect the resized case for proper dimensions and any signs of damage.
- Repeat the process for each case, ensuring that you do not exceed the recommended load limits.

Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Recycle metal components where possible.
- Do not dispose of any product in regular household waste.

Contact Information for Further Support

For any questions regarding the DUAL RING CARBIDE SIZING DIES, please refer to the manufacturer's website or customer service for assistance.

Conclusion

Following these safety instructions will help ensure a safe and effective reloading experience. Always prioritize safety and adhere to best practices when using reloading equipment. Thank you for your attention to these important guidelines.
