

DUAL RING CARBIDE SIZING DIES - REDDING DUAL RING CARBIDE SIZING DIE, .45 ACP

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

These tool steel sizing dies incorporate two separate Titanium carbide rings to properly resize straight-wall pistol cases. With a single stroke of the press, the top ring dimensionally sizes the case at the mouth, while the lower rings sizes the length of the case body without overworking the brass and shortening case life.

Safety Instruction Guide for DUAL RING CARBIDE SIZING DIES

Introduction

Thank you for choosing the DUAL RING CARBIDE SIZING DIES by Redding. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using the sizing dies.

General Safety Guidelines

- Always ensure that the sizing dies are used in accordance with the manufacturer's instructions.
- Keep the dies and all related tools out of reach of children and vulnerable individuals.
- Regularly inspect the dies for any signs of wear or damage before use.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling the dies.
- Report any unsafe conditions or accidents to the relevant authorities immediately.
- Stay informed about product recalls or safety notices via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure the press is securely mounted and stable before operation.
- Do not exceed the recommended load limits of the press when using the dies.
- Avoid using the dies with damaged or improperly sized brass cases.
- Always handle the dies with care to prevent injury from sharp edges.
- Do not attempt to modify or repair the dies; contact the manufacturer for any issues.
- Follow proper procedures for cleaning and maintaining the dies to ensure longevity and safe operation.

Instructions for Installation and Usage

1. Installation:

- Ensure the press is powered off and unplugged.
- Follow the manufacturer's instructions to securely attach the sizing dies to the press.
- Adjust the dies according to the specifications for .45 ACP cartridges.

2. Usage:

- Place the brass case into the shell holder of the press.
- Engage the press handle smoothly and steadily to resize the case.
- Monitor the operation to ensure that the case is resized without excessive force.
- After resizing, inspect the case for proper dimensions and any signs of damage.

3. PostUsage:

- Remove the resized cases from the press and store them in a safe location.
- Clean the sizing dies according to the manufacturer's recommendations to maintain their performance.

Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations for hazardous waste.
- Recycle packaging materials where possible, following local recycling guidelines.

Contact Information for Further Support

For any questions or concerns regarding the DUAL RING CARBIDE SIZING DIES, please refer to the manufacturer's contact information provided with your purchase. Ensure that you have your product details ready when seeking assistance.

Thank you for prioritizing safety while using the DUAL RING CARBIDE SIZING DIES. Your careful attention to these guidelines will help ensure a safe and effective reloading experience.
