## STANDARD BULLET SEATING MICROMETER

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

Redding Competition Seating Dies deliver the precision and accuracy preferred by the most discriminating handloaders. Now you can easily convert your conventional seating die to a precision micrometer seating die for use with STD (standard) bullets for precise, repeatable bullet seating depths to within 1/1000th of an inch and potential world-record accuracy. Designed for all seating dies that use a seat plug with 1/2-20 threads. Easily changes from one die to another, just match the number on your current seating plug to the corresponding bullet seating micrometer number. View Redding Micrometer Reference Chart here.

# Safety Instruction Guide for STANDARD BULLET SEATING MICROMETERS REDDING #19

## Introduction

Thank you for choosing the Redding #19 Standard Bullet Seating Micrometer. This product is designed to enhance your reloading experience by providing precision and accuracy. To ensure safe and effective use, please read this safety instruction guide carefully before using the product.

## General Safety Guidelines

- **Product Safety:** This product is designed to be safe for use. However, improper handling or usage can lead to accidents. Always follow safety instructions.
- **Enhanced Recalls:** Stay informed about any product recalls. If a recall occurs, you will be notified through standard channels.
- **Online Shopping:** If you purchased this product online, you have the same safety protections as if you bought it in a physical store.
- **Special Consumer Focus:** This product is not intended for use by children. Always keep it out of reach of minors.
- **EU Contact Point:** For any safety inquiries, please refer to your local EU contact point.
- **Rapid Alerts:** Keep informed about product safety updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Read the Manual:** Always read the user manual before operating the micrometer.
- **Wear Safety Gear:** Use appropriate safety gear, including safety glasses and gloves, to protect yourself during use.
- **Inspect Before Use:** Check the micrometer for any signs of damage or wear before each use. Do not use if damaged.
- **Avoid Overtightening:** When installing the micrometer, do not overtighten to prevent damage to the threads.
- **Proper Storage:** Store the micrometer in a dry and safe place when not in use to prevent damage or accidents.
- **Use for Intended Purpose:** Only use the micrometer for its intended purpose, which is to measure and adjust bullet seating depths.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure you have the correct seating die that uses a seat plug with  $\frac{1}{2}20$  threads.
- Remove the current seating plug from your die.
- Match the number on your current seating plug to the corresponding bullet seating micrometer number.
- Carefully screw the micrometer into the die until it is secure but not overtightened.

### 2. Usage:

- Set the micrometer to the desired bullet seating depth.
- Place the bullet into the die and gently lower the seating stem.
- Adjust the micrometer as necessary for precise seating depth.
- After use, return the micrometer to its original position for safe storage.

## Disposal Instructions

- **Dispose Responsibly:** When the micrometer is no longer usable, dispose of it in accordance with local regulations.
- **Recycling:** Consider recycling the product if possible. Check with local recycling facilities for guidelines on metal disposal.

## Contact Information for Further Support

For any questions or concerns regarding the use of the Redding #19 Standard Bullet Seating Micrometer, please refer to your local retailer or the manufacturer's website for support resources.

By following these guidelines, you can ensure a safe and effective experience with your Redding #19 Standard Bullet Seating Micrometer. Thank you for your attention to safety.
