

STANDARD BULLET SEATING MICROMETERS - REDDING #20

STANDARD BULLET SEATING MICROMETER

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

Redding Competition Seating Dies deliver the precision and accuracy preferred by the most discriminating handloaders. Now you can easily convert your conventional seating die to a precision micrometer seating die for use with STD (standard) bullets for precise, repeatable bullet seating depths to within 1/1000th of an inch and potential world-record accuracy. Designed for all seating dies that use a seat plug with 1/2-20 threads. Easily changes from one die to another, just match the number on your current seating plug to the corresponding bullet seating micrometer number. View Redding Micrometer Reference Chart here.

Safety Instruction Guide for Redding Standard Bullet Seating Micrometers

Introduction

Thank you for choosing the Redding Standard Bullet Seating Micrometer. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the micrometer to avoid potential hazards and ensure optimal performance.

General Safety Guidelines

- Ensure the product is used in accordance with the manufacturer's instructions.
- Always inspect the micrometer before use for any signs of damage or wear.
- Keep the micrometer out of reach of children and vulnerable individuals.
- Use the micrometer only for its intended purpose as specified in this guide.
- Report any unsafe conditions or accidents related to the micrometer to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when using the micrometer.
- Ensure that the work area is clean, dry, and welllit to prevent accidents.
- Do not exceed the specified limits of the micrometer; using it beyond its designed capacity can lead to inaccurate measurements or damage.
- Ensure that the micrometer is securely attached to the seating die before making any adjustments.
- Avoid applying excessive force when adjusting the micrometer to prevent damage.
- Keep hands and other body parts clear of moving parts during operation.
- If you experience any issues while using the micrometer, cease use immediately and consult the troubleshooting section of this guide.

Instructions for Installation and Usage

1. Installation:

- Ensure that your seating die is compatible with the micrometer. The micrometer is designed for dies that use a seat plug with $\frac{1}{2}20$ threads.
- Remove the existing seating plug from your die by unscrewing it counterclockwise.
- Align the micrometer with the die and screw it in clockwise until it is securely fastened.
- Match the number on your current seating plug to the corresponding bullet seating micrometer number for proper installation.

2. Usage:

- Adjust the micrometer to the desired bullet seating depth by turning the micrometer dial. Ensure that you do not exceed the maximum depth limits.
- Insert the bullet into the seating die and lower the ram to seat the bullet to the specified depth.
- After seating, remove the bullet and measure the depth to verify accuracy.
- Repeat the process as necessary, making minor adjustments to the micrometer for precise seating.

Disposal Instructions

- Dispose of the micrometer in accordance with local regulations for electronic waste and metal products.
- Do not dispose of the micrometer in regular household waste.
- Consider recycling the product if possible to minimize environmental impact.

Contact Information for Further Support

For safety inquiries, product support, or to report unsafe conditions, please contact the manufacturer or authorized distributor. Ensure to have your product details ready for efficient assistance.

By following this safety instruction guide, you can ensure the safe and effective use of the Redding Standard Bullet Seating Micrometer. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
