

FULL LENGTH SIZING DIES - FORSTER PRODUCTS, INC. 300 AAC BLACKOUT FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die.

Safety Instruction Guide for Forster Full Length Sizing Dies

Introduction

Thank you for choosing the Forster Full Length Sizing Dies. These dies are designed to provide you with highquality reloading capabilities for the 300 AAC Blackout cartridge. To ensure your safety and the successful operation of this product, please read and follow the safety guidelines and instructions outlined in this document.

General Safety Guidelines

- Always use the Forster Full Length Sizing Dies in accordance with the manufacturer's recommendations.
- Ensure that you are familiar with the operation of your reloading equipment before use.
- Keep the dies and all reloading components out of reach of children and unauthorized users.
- Regularly inspect your dies for signs of wear or damage. Do not use damaged dies.
- Use appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling reloading materials.
- Be aware of the legal regulations regarding reloading in your area.

Specific Safety Precautions for Use

- Ensure that you are using the correct caliber die for your specific cartridge.
- Always check that the die is securely mounted in the reloading press before use.
- Avoid overtightening the die, as this can cause damage or misalignment.
- Use the EZ Out Expander button carefully to prevent neck damage during the expanding operation.
- Do not attempt to modify or repair the dies yourself. Contact the manufacturer for any issues.
- Keep work areas clean and free from clutter to reduce the risk of accidents.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is turned off and unplugged before installation.
- Remove any existing dies from the press.
- Insert the Forster Full Length Sizing Die into the press and tighten it securely using the Forster Cross Bolt Die Locking Ring.
- Check that the die is aligned correctly with the press.

2. Usage:

- Prepare your cases by cleaning and inspecting them for damage.
- Set the die to the desired depth according to the reloading specifications for the 300 AAC Blackout.
- Insert a case into the shell holder and raise the ram to engage the die.
- Use the EZ Out Expander button to expand the neck of the case. Ensure it is positioned correctly for concentricity.
- Withdraw the case from the die and inspect it for proper sizing.

Disposal Instructions

- Dispose of any damaged or worn reloading dies according to local regulations.
- Do not throw dies in regular household waste. Contact local waste management for proper disposal methods.

- Ensure that all reloading materials, including spent primers and powder, are disposed of safely and in accordance with local laws.

Contact Information for Further Support

For any inquiries or assistance regarding the Forster Full Length Sizing Dies, please refer to the manufacturer's contact information provided in the product packaging or on the official Forster website.

Conclusion

By following these safety guidelines and instructions, you can enjoy a safe and effective reloading experience with your Forster Full Length Sizing Dies. Always prioritize safety and adhere to best practices to ensure the longevity of your equipment and the safety of your reloading activities.
