

# HAND HELD OUTSIDE NECK TURNER PILOTS - FORSTER PRODUCTS, INC. 0.284" HAND HELD NECK TURNER PILOT

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Turning & Expander Mandrels](#)

Forster's easy-to-use hand-held neck turning tool helps you take the next step toward cartridge-to-cartridge consistency. It features a carbide cutter with a micrometer-style adjustment knob for precise material removal to give cases consistent wall thickness that improves bullet-to-bore alignment. The aluminum holder retains the case firmly with a simple turn of the knob; holds up to .592" base diameter. Large case holder available for cases from .593" to .812" base diameter. Requires a pilot that's specific to the case mouth diameter; sold separately, see table below. Pilots are precision-ground .002" to .0025" smaller than the bullet diameter.

## Attributes

- Name: [FORSTER PRODUCTS, INC. 0.284" HAND HELD NECK TURNER PILOT](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 749012900

## SAFETY INSTRUCTIONS

### Introduction

Thank you for choosing the Hand Held Outside Neck Turner Pilot from Forster Products, Inc. This tool is designed to enhance cartridge consistency for improved shooting performance. To ensure safe and effective use, please read and follow these safety instructions carefully.

### General Safety Guidelines

- Always use the neck turner pilot according to the manufacturer's instructions.
- Ensure that the work area is clean, dry, and well lit to prevent accidents.
- Keep the tool out of reach of children and unauthorized users.
- Inspect the tool before each use for any signs of damage or wear.
- Do not modify the tool or use it for purposes other than intended.
- If you experience any discomfort or pain while using the tool, stop immediately and consult a professional.

### Specific Safety Precautions for Use

- Use appropriate eye protection when operating the neck turner pilot.
- Avoid loose clothing or jewelry that could become entangled in the tool.
- Ensure that the case is securely held in place before turning the knob.
- Do not exceed the maximum base diameter limits of the tool.
- Use only the recommended pilots that correspond to the case mouth diameter.
- Make sure the carbide cutter is sharp and properly adjusted before use.
- Dispose of any metal shavings or debris safely to avoid injury.

### Instructions for Installation and Usage

#### 1. Preparation:

- Gather all necessary tools and materials.
- Ensure you have the correct pilot for your case mouth diameter.

#### 2. Installing the Pilot:

- Remove the neck turner pilot from its packaging.
- Select the appropriate pilot and insert it into the neck turner tool.
- Ensure the pilot is seated correctly and securely.

#### 3. Using the Neck Turner:

- Place the case into the aluminum holder.
- Turn the knob to secure the case firmly.
- Adjust the micrometer style knob to set the desired material removal.
- Slowly and steadily turn the tool to achieve consistent wall thickness.
- Periodically check the case for consistency and adjust as necessary.

#### 4. PostUse Care:

- After use, clean the tool to remove any debris or residue.

- Store the neck turner pilot in a safe, dry place away from children.

## **Disposal Instructions**

- Dispose of the tool in accordance with local regulations for metal products.
- Recycle any components that are recyclable.
- Do not dispose of the tool in regular household waste.

## **Contact Information for Further Support**

For safety inquiries, product support, or to report unsafe products, please contact the manufacturer directly through their official channels.

Thank you for your attention to these safety instructions. Enjoy using your Hand Held Outside Neck Turner Pilot responsibly and safely!
