

HAND HELD OUTSIDE NECK TURNER PILOTS - FORSTER PRODUCTS, INC. #422 NECK TURNER PILOT FOR 0.422" BULLETS

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Turning & Expander Mandrels](#)

Forster's easy-to-use hand-held neck turning tool helps you take the next step toward cartridge-to-cartridge consistency. It features a carbide cutter with a micrometer-style adjustment knob for precise material removal to give cases consistent wall thickness that improves bullet-to-bore alignment. The aluminum holder retains the case firmly with a simple turn of the knob; holds up to .592" base diameter. Large case holder available for cases from .593" to .812" base diameter. Requires a pilot that's specific to the case mouth diameter; sold separately, see table below. Pilots are precision-ground .002" to .0025" smaller than the bullet diameter.

Safety Instruction Guide for HAND HELD OUTSIDE NECK TURNER PILOTS

Introduction

Thank you for choosing the HAND HELD OUTSIDE NECK TURNER PILOTS by Forster Products, Inc. This tool is designed to enhance your cartridge preparation process, ensuring consistency and precision. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always read and understand all instructions before using the tool.
- Use the tool only for its intended purpose as described in the product documentation.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool regularly for any signs of damage or wear before use.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use protective eyewear to safeguard against debris during operation.
- Ensure that the work area is clean and free from any obstructions or hazards.
- Do not operate the tool while under the influence of drugs or alcohol.
- Maintain a stable grip on the tool while in use to prevent slips and accidents.
- Avoid wearing loose clothing or jewelry that may become caught in the tool.
- Always turn the adjustment knob slowly and carefully to prevent sudden movements.

Instructions for Installation and Usage

1. Gather Required Materials

- HAND HELD OUTSIDE NECK TURNER PILOTS
- Appropriate pilot for the case mouth diameter (sold separately)
- Cases to be processed

2. Installation of the Pilot

- Select the pilot that corresponds to the case mouth diameter.
- Insert the pilot into the designated opening of the neck turner tool.
- Ensure the pilot is securely in place before proceeding.

3. Using the Neck Turner Tool

- Place the case into the aluminum holder.
- Firmly turn the knob to secure the case in place.
- Adjust the micrometerstyle knob to set the desired material removal depth.
- Turn the tool slowly and steadily to achieve consistent wall thickness.
- After processing, remove the case from the holder.

4. PostUse Care

- Clean the tool after each use to remove any debris or residue.
- Store the tool in a dry, safe location when not in use.

Disposal Instructions

- Dispose of the tool and any associated materials in accordance with local regulations.
- If the tool is damaged beyond repair, ensure it is disposed of in a manner that prevents accidental injury to others.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the contact information provided in the product packaging or visit the manufacturer's website.

Thank you for prioritizing safety while using the HAND HELD OUTSIDE NECK TURNER PILOTS. Your adherence to these guidelines helps ensure a safe and effective user experience.
