

TIN COATED TRIMMER CUTTER - L.E. WILSON TIN COATED TRIMMER CUTTER

[Reloading](#) > [Case Preparation](#) > [Case Trimming](#) > [Trimmer Accessories](#)

L.E. Wilsons TiN coated trimmer cutter has an ideal combination of hardness, toughness, adhesion and inertness. This coated cutter will hold sharp edges and corners and has a higher Rockwell hardness than Chrome and Carbide cutters. The TiN coating is applied with a Physical Vapor Deposition vacuum system and can last 3-10 times longer than standard cutters. Made for the LE Wilson Case Trimmer this cutter will provide a long lasting, durable cutting edge.

Safety Instruction Guide for TIN COATED TRIMMER CUTTER L.E. WILSON

Introduction

Thank you for choosing the L.E. Wilson TiN Coated Trimmer Cutter. This safety instruction guide is designed to provide you with important safety information, usage instructions, and guidelines to ensure safe and effective use of the product. Please read this guide carefully before using the trimmer cutter.

General Safety Guidelines

- Always handle the cutter with care to avoid injuries.
- Ensure that the cutter is used only for its intended purpose.
- Keep the cutter out of reach of children and vulnerable individuals.
- Regularly inspect the cutter for any signs of wear or damage before use.
- Use appropriate personal protective equipment (PPE) such as gloves and safety goggles during operation.
- Follow all local regulations regarding the disposal of cutting tools and materials.

Specific Safety Precautions for Use

- Do not use the cutter if it is damaged or has a loose blade.
- Avoid using the cutter near flammable materials.
- Ensure that your work area is clean and free of obstructions before starting.
- Do not attempt to modify the cutter in any way.
- Always cut away from your body to prevent accidental injuries.
- Do not place your fingers near the cutting edge while in use.
- Store the cutter in a safe place when not in use to prevent accidents.

Instructions for Installation and Usage

1. Installation:

- Ensure that the trimmer cutter is compatible with your L.E. Wilson Case Trimmer.
- Follow the manufacturer's instructions for attaching the cutter to the trimmer securely.
- Make sure all connections are tight and secure before using the cutter.

2. Usage:

- Set up your workspace in a welllit area.
- Prepare the case or material you will be trimming.
- Place the case in the trimmer and adjust the settings according to the manufacturer's recommendations.
- Start the trimmer and allow it to reach the desired speed before beginning to cut.
- Use steady, even pressure while trimming to achieve a clean edge.
- After use, turn off the trimmer and unplug it before removing the cutter.

Disposal Instructions

- Dispose of the trimmer cutter in accordance with local regulations for hazardous waste.
- Do not throw the cutter in regular trash due to its sharp edges.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any safety inquiries or concerns regarding the TIN COATED TRIMMER CUTTER L.E. WILSON, please contact the appropriate consumer safety authority in your country.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective experience while using the L.E. Wilson TiN Coated Trimmer Cutter. Always prioritize safety and be aware of your surroundings while operating cutting tools. Thank you for your attention to these important safety measures.
