

STEEL NECK SIZING BUSHINGS - RCBS STEEL NECK DIE BUSHING .290

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS STEEL NECK DIE BUSHING .290](#)
- Manufacturer: [RCBS](#)
- Product no.: 749014082
- Mfr. No.: 81605
- Diameter (Breech): -
- Diameter (in): .290
- Delivery weight: 0.007kg
- Shipping height: 127mm
- Shipping width: 127mm
- Shipping length: 127mm
- UPC: 076683816054

Consumer Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

Introduction

Thank you for choosing the RCBS Steel Neck Sizing Bushings. These bushings are designed to enhance your reloading experience by providing precise tension on bullets, ultimately improving accuracy and prolonging case life. This guide provides essential safety instructions to ensure your safe and effective use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure safe use of the RCBS Steel Neck Sizing Bushings by following these guidelines:
 - Always read and understand the product instructions before use.
 - Keep the bushings out of reach of children and vulnerable individuals.
 - Use the bushings only with compatible RCBS Gold Medal Match sizing dies.
 - Regularly inspect the bushings for signs of wear or damage before each use.
 - Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- To minimize risks while using the RCBS Steel Neck Sizing Bushings, observe the following precautions:
 - Ensure proper alignment of the bushing with the case neck for accurate sizing.
 - Use traditional case lubrication to prevent damage to the bushings and cases.
 - When measuring for the correct bushing size, follow the recommended methods:
 - Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003".
 - Measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".
 - Avoid using the bushings with cases that have inconsistent neck thicknesses, as this may affect performance and safety.
 - Do not exceed the recommended bushing sizes; have one to two sizes above and below your target diameter.

Instructions for Installation and Usage

- Follow these steps to ensure safe installation and usage of the RCBS Steel Neck Sizing Bushings:
 - 1. Preparation**
 - Gather all necessary tools and materials, including the RCBS Gold Medal Match sizing die, bushings, and case lubrication.
 - 2. Installation**
 - Remove the sizing die from your reloading press.
 - Select the appropriate Steel Neck Bushing based on your measurements.
 - Insert the chosen bushing into the sizing die, ensuring it is seated correctly.
 - Reattach the sizing die to the reloading press securely.
 - 3. Usage**
 - Apply case lubrication to the cases before sizing to prevent sticking.
 - Place a lubricated case into the sizing die and operate the press to size the case.
 - Inspect the sized case for proper tension and fit.
 - Repeat the process for additional cases as needed, ensuring to use the correct bushing for each.

Disposal Instructions

- When disposing of the RCBS Steel Neck Sizing Bushings, adhere to the following guidelines:
 - Do not dispose of the bushings in regular household waste.
 - Check local regulations for proper disposal of steel and metal products.
 - If the bushings are damaged or no longer usable, consider recycling options available in your area.

Contact Information for Further Support

- For any inquiries or concerns regarding the RCBS Steel Neck Sizing Bushings, please refer to the appropriate contact resources available in your region.

Thank you for adhering to these safety instructions. By following the guidelines provided, you can ensure a safe and efficient reloading experience with your RCBS Steel Neck Sizing Bushings.
