

# DUAL RING CARBIDE SIZING DIES - REDDING DUAL RING CARBIDE SIZING DIE, .38 SPECIAL

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

These tool steel sizing dies incorporate two separate Titanium carbide rings to properly resize straight-wall pistol cases. With a single stroke of the press, the top ring dimensionally sizes the case at the mouth, while the lower rings sizes the length of the case body without overworking the brass and shortening case life.

## Attributes

# Safety Instruction Guide for DUAL RING CARBIDE SIZING DIES

## Introduction

Thank you for choosing the DUAL RING CARBIDE SIZING DIES, specifically designed for resizing .38 Special pistol cases. This guide provides essential safety instructions and usage guidelines to ensure safe and effective operation of the product. Please read this document carefully to understand the necessary precautions and procedures.

## General Safety Guidelines

- Always use the DUAL RING CARBIDE SIZING DIES in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean, dry, and free from any obstructions before beginning any resizing operation.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, to protect against potential hazards.
- Keep the product out of reach of children and unauthorized users.
- Do not use the sizing dies for any purpose other than intended resizing of .38 Special pistol cases.
- Regularly inspect the dies for any signs of wear or damage. If any issues are detected, discontinue use immediately.
- Follow all local laws and regulations regarding the handling and reloading of ammunition.

## Specific Safety Precautions for Use

- Ensure that the press used with the dies is compatible and in good working condition.
- When resizing cases, maintain a steady and controlled motion to avoid overworking the brass.
- Avoid excessive force during operation, as this may lead to breakage or damage to the dies or cases.
- Always check the resized cases for proper dimensions before proceeding to the next step in the reloading process.
- Store the sizing dies in a secure location when not in use to prevent accidental damage or misuse.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the press is securely mounted and stable.
- Clean the dies and the press to remove any debris or contaminants.
- Thread the DUAL RING CARBIDE SIZING DIES into the press according to the manufacturer's specifications.
- Tighten the dies securely to prevent loosening during operation.

### 2. Usage:

- Prepare the .38 Special cases by cleaning them thoroughly to remove any dirt or residue.
- Insert a case into the press and align it with the sizing die.
- Pull the handle of the press smoothly and steadily to resize the case.
- After resizing, remove the case and inspect it for proper dimensions.
- Repeat the process for each case, ensuring consistent technique for best results.

## **Disposal Instructions**

- Dispose of any damaged or wornout dies in accordance with local regulations regarding metal waste.
- Recycle materials whenever possible, following local guidelines for recycling metal products.
- Ensure that all discarded materials are kept out of reach of children and pets.

## **Contact Information for Further Support**

For any questions or concerns regarding the DUAL RING CARBIDE SIZING DIES, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you can ensure a safe and effective resizing process with your DUAL RING CARBIDE SIZING DIES. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
