# Safety Instruction Guide for Starline .450 Bushmaster Brass

## Introduction

Thank you for choosing Starline .450 Bushmaster brass. This guide provides essential safety information to ensure the safe handling, use, and disposal of this product. Please read this guide carefully to understand the precautions necessary for your safety and the proper use of the brass.

## General Safety Guidelines

- Always handle ammunition components, including brass, with care.
- Store brass in a cool, dry place away from direct sunlight and moisture.
- Keep brass and all reloading components out of reach of children and unauthorized users.
- Regularly inspect brass for signs of wear, damage, or deformation before use.
- Follow all local laws and regulations regarding ammunition and reloading.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Improper handling or use of brass can lead to serious injury or damage.
  - Reloading ammunition requires knowledge and experience. If you are a beginner, seek guidance from experienced reloaders.
- **Avoiding Hazards:**
  - Always use protective eyewear when reloading to protect against accidental discharge or debris.
  - Ensure that your reloading area is wellventilated to avoid inhalation of dust or fumes.
  - Do not overload cartridges beyond recommended specifications to prevent malfunctions.
  - Always doublecheck your reloading data against reputable sources.
- **AudienceSpecific Warnings:**
  - This product is intended for use by individuals who are at least 18 years old and have experience with reloading ammunition.
  - Keep this product away from children and inexperienced users.

## Instructions for Installation and Usage

- **Preparation:**
  - Gather all necessary reloading tools and components, including dies, powder, primers, and bullets.
  - Ensure your reloading press is clean and in good working condition.
- **Reloading Process:**
  1. Inspect each piece of brass for defects before reloading.
  2. Clean the brass to remove any dirt or residue.
  3. Resize the brass using a resizing die according to the manufacturer's instructions.
  4. Prime each case using the appropriate primer for the .450 Bushmaster caliber.
  5. Charge the case with powder according to the reloading data you are following.
  6. Seat the bullet to the recommended overall length (OAL) for the .450 Bushmaster.

7. Crimp the bullet if necessary, following the reloading guidelines.

- **PostUse:**

- Store any unused brass and reloaded ammunition in a secure location.
- Dispose of any damaged or unusable brass in accordance with local regulations.

## **Disposal Instructions**

- Dispose of spent brass in accordance with local waste disposal regulations.
- Do not discard brass in regular trash. Check for local recycling programs that accept brass materials.
- Ensure that all reloading components are stored or disposed of safely to prevent accidental exposure or misuse.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and use of Starline .450 Bushmaster brass, please refer to the manufacturer's website or contact customer support for assistance.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and enjoyable reloading experience with Starline .450 Bushmaster brass. Always prioritize safety and consult experienced reloaders if you have any questions or uncertainties. Thank you for your responsible use of this product.
