

# 38 SPECIAL +P BRASS - STARLINE 38 SPECIAL +P BRASS 100/BAG

[Reloading](#) > [Brass](#) > [Pistol Brass](#)

38 Special +P has no difference from the standard 38 Special other than headstamp designation for load segregation. This is due to the fact that Starlines standard case design will handle +P pressures with no problems. Starline is a family owned business and prides itself on producing the highest quality brass case available. With a production process focused on quality not quantity, Starline makes the finest brass and has for more than 40 years out of their state-of-the-art manufacturing facility in Sedalia, MO.

# Safety Instruction Guide for 38 SPECIAL +P BRASS STARLINE 38 SPECIAL +P BRASS 100/BAG

## Introduction

Thank you for choosing the 38 SPECIAL +P BRASS from Starline. This product is designed to provide highquality performance for your reloading needs. This safety instruction guide outlines essential safety guidelines, precautions, and instructions to ensure safe handling and use of this product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always handle ammunition components with care and respect.
- Store brass cases in a cool, dry place away from moisture and extreme temperatures.
- Keep all ammunition components out of reach of children and unauthorized individuals.
- Regularly check for any recalls or safety updates regarding this product on the EU's Safety Gate platform.
- Report any unsafe products or accidents to local authorities immediately.

## Specific Safety Precautions for Use

- Ensure you are of legal age and have the necessary training to handle ammunition components.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when reloading.
- Inspect brass cases for any visible damage or defects before use. Do not use damaged cases.
- Follow the recommended load data for your specific firearm to avoid overpressure situations.
- Do not mix +P and standard 38 Special loads. Clearly label your ammunition to avoid confusion.

## Instructions for Installation and Usage

- Before starting the reloading process, ensure your workspace is clean and organized.
- Gather all necessary tools and materials, including:
  - Reloading press
  - Dies for 38 Special +P
  - Scale for measuring powder
  - Safety equipment (eye protection, gloves)
- Follow these steps for reloading:
  1. **Prepare the Brass:**
    - Clean the brass cases thoroughly to remove dirt and debris.
    - Inspect for any signs of wear or damage.
  2. **Resize the Brass:**
    - Use the appropriate resizing die to ensure the brass is properly shaped for your firearm.
  3. **Prime the Cases:**
    - Insert the appropriate primers into each case, ensuring they are seated correctly.
  4. **Measure and Add Powder:**
    - Accurately measure the powder charge using a scale and add it to the case.
  5. **Seat the Bullet:**
    - Place the bullet on top of the powder and use the seating die to push it into the case to the correct depth.
  6. **Crimp the Case:**
    - Use the crimping die to secure the bullet in place and ensure proper seating.
- Store completed ammunition in a designated, safe location.

## Disposal Instructions

- Dispose of any unused or damaged brass cases in accordance with local regulations.
- Do not throw brass cases in regular trash. Check for recycling options in your area.
- Ensure that all hazardous materials, such as primers and powders, are disposed of according to local hazardous waste guidelines.

## Contact Information for Further Support

For any questions or concerns regarding the use of this product, please consult your local reloading expert or refer to the relevant authorities for guidance. Always ensure that you are following the latest safety standards and regulations.

Thank you for your attention to these safety guidelines. Your safety is our priority. Enjoy your reloading experience with Starline 38 SPECIAL +P BRASS!
