

# BUSHING FULL LENGTH DIES - L.E. WILSON 300 REMINGTON ULTRA MAGNUM BUSHING FULL LENGTH DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Wilson Bushing Type Full Length Sizing Die. This die will allow you to size the case neck to your desired neck tension along with sizing down the rest of the case body at the same time. Die includes an adjustable depth decapping rod. An extra Decapping Punch is included. These dies do not contain an expander. Made of High Quality Heat Treated Steel. These Full Length Bushing dies mimic the neck sizing of Wilsons' neck sizing dies and are designed to leave 3/16" at the bottom of the case neck unsized, a practice many shooters prefer and find to be more accurate than sizing the full neck. Mad from High Quality Material - Hardened to L.E. Wilson Specifications Harder than a Grade 8 Bolt Interchangeable Bushings Standard 7/8ths Reloading Press Sizes Shoulder and Body Dimensions Stainless Parts for a Long Lasting Finish Durable and Accurate L.E. Wilson manufactured lock nut - thickness is .225" from inside to outermost edge .270" for height and 1.250" total width OD. Neck Bushing sold separately, we suggest using LE Wilson Neck bushings but Redding bushings will also fit.

# Safety Instruction Guide for BUSHING FULL LENGTH DIES L.E. WILSON 300 REMINGTON ULTRA MAGNUM

## Introduction

Thank you for choosing the Bushing Full Length Dies by L.E. Wilson. This product is designed for safe and efficient reloading of 300 Remington Ultra Magnum cartridges. Please read this safety instruction guide thoroughly to ensure proper use and to minimize risks associated with reloading.

## General Safety Guidelines

- Always wear appropriate safety gear, including eye protection and gloves, when handling reloading equipment and components.
- Keep the workspace clean and organized to avoid accidents and ensure safety.
- Store all reloading materials and equipment in a secure location, out of reach of children and pets.
- Familiarize yourself with the local laws and regulations regarding reloading ammunition.
- Always follow the manufacturer's instructions for the safe operation of reloading equipment.
- Be aware of the potential hazards associated with reloading, including the handling of gunpowder and primers.

## Specific Safety Precautions for Use

- Ensure that the die is compatible with the specific cartridge you are reloading (300 Remington Ultra Magnum).
- Inspect the die and all components for damage before use. Do not use damaged equipment.
- Do not exceed recommended load limits when reloading ammunition.
- Keep your work area wellventilated to avoid inhalation of any particles or fumes.
- Avoid any distractions while reloading to maintain focus and precision.
- Do not use the die for purposes other than those intended by the manufacturer.

## Instructions for Installation and Usage

### 1. Installation of the Die:

- Ensure your reloading press is securely mounted and stable.
- Thread the Bushing Full Length Die into the reloading press until it is snug. Do not overtighten.
- Insert the adjustable depth decapping rod into the die and adjust to the desired depth.

### 2. Using the Die:

- Before reloading, ensure that the cases are clean and free of debris.
- Place the case into the shell holder of the press.
- Pull the handle of the press to size the case neck and body simultaneously.
- After sizing, remove the case and inspect it for proper dimensions and fit.
- Repeat the process for all cases being reloaded.

### 3. Neck Bushing:

- Note that neck bushings must be purchased separately. It is recommended to use L.E. Wilson Neck bushings for optimal performance, although Redding bushings can also be used.

## **Disposal Instructions**

- Dispose of any unused or expired reloading materials according to local regulations.
- Do not dispose of gunpowder or primers in regular trash. Contact local waste management services for proper disposal methods.
- Ensure that all components are stored in a safe location until disposal.

## **Contact Information for Further Support**

For any questions or concerns regarding the Bushing Full Length Dies or reloading practices, please refer to the manufacturer's contact details provided with your product packaging.

## **Conclusion**

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with the Bushing Full Length Dies by L.E. Wilson. Always prioritize safety and adhere to best practices when handling reloading equipment and materials.
