

MEC POWDER BUSHINGS - MEC RELOADING #13A POWDER BUSHING

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

We stock a variety of the MEC powder bushings. Each bushing holds a unique volume enabling you to adjust the powder load for your rounds. It is always recommended to use a scale to check powder weights for accuracy. We offer individual bushings in #7 thru #13 and #16 thru #38. Please refer to the MEC website for powder charts that will give you a recommended bushing and start point for your specific powder at www.mecreloaders.com

MEC Powder Bushings Safety Instruction Guide

Introduction

Thank you for choosing MEC Powder Bushings. These products are designed to help you achieve precise powder measurements for your reloading needs. To ensure safe and effective use, please read this safety instruction guide carefully. It contains important information about product safety, usage precautions, installation instructions, and disposal methods.

General Safety Guidelines

- Always use the MEC Powder Bushings in accordance with the manufacturer's instructions.
- Ensure that you are familiar with safe reloading practices.
- Keep the powder bushings out of reach of children.
- Regularly inspect the bushings for any signs of damage or wear before use.
- Store the bushings in a cool, dry place away from direct sunlight and moisture.
- Use a scale to verify powder weights for accuracy.
- Report any unsafe products or accidents to the appropriate authorities.
- Check the EU Safety Gate platform for recall updates on this product.

Specific Safety Precautions for Use

- Ensure your workspace is clean and free from distractions when using the powder bushings.
- Do not exceed the recommended powder load for your specific bushing.
- Use only compatible powders as indicated on the MEC website.
- Avoid using the bushings with any materials that are not specified for use.
- If you experience any adverse reactions while using the product, discontinue use immediately and seek assistance.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling powders.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including your MEC Powder Bushing, scale, and reloading equipment.
- Ensure your work area is wellventilated and free from flammable materials.

2. Installation:

- Identify the correct bushing size based on your desired powder load.
- Insert the bushing into the designated area of your reloading press according to the manufacturer's instructions.
- Ensure the bushing is securely in place before proceeding.

3. Usage:

- Measure the desired amount of powder using the bushing.
- Always doublecheck the weight of the powder using a scale for accuracy.
- Follow your reloading press instructions for the next steps in the reloading process.
- After use, clean the bushing to remove any residual powder.

Disposal Instructions

- Dispose of any damaged or worn powder bushings in accordance with local regulations.
- Do not throw the bushings in regular household waste if they are contaminated with powders.
- Check with local waste management authorities for proper disposal methods for hazardous materials.

Contact Information for Further Support

For any safety inquiries or additional support, please refer to the MEC website or consult your local MEC dealer.

Thank you for your attention to these safety instructions. Safe reloading practices contribute to a successful and enjoyable reloading experience.
