Safety Instruction Guide for L.E. Wilson VLD Seating Stem

Introduction

Thank you for choosing the L.E. Wilson VLD Seating Stem. This guide provides essential safety information, usage instructions, and disposal guidelines to ensure your safety and the effective operation of this product. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that all safety precautions are followed when using reloading equipment.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, during the reloading process.
- Store the product in a cool, dry place away from direct sunlight and moisture.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use.
- Follow all local regulations and guidelines related to ammunition reloading and handling.

Specific Safety Precautions for Use

- Use only with compatible L.E. Wilson Chamber Type Bullet Seater Dies.
- Ensure that the seating stem is securely attached to the die before use.
- Avoid overtightening the seating stem, as this may cause damage to the product or result in inaccurate bullet seating.
- Do not use the seating stem with bullets that exceed the maximum specifications for the product.
- Always work in a wellventilated area to minimize exposure to any dust or fumes generated during the reloading process.
- Familiarize yourself with the specific characteristics of VLD bullets to ensure proper seating and performance.

Instructions for Installation and Usage

1. Installation:

- Ensure that the L.E. Wilson Chamber Type Bullet Seater Die is clean and free of debris.
- Remove the standard seating stem from the die by unscrewing it counterclockwise.
- Take the L.E. Wilson VLD Seating Stem and insert it into the die.
- Secure the seating stem by tightening it clockwise until snug, but avoid overtightening.

2. Usage:

- Prepare your cases and bullets according to your reloading specifications.
- Place a prepared case into the die and ensure it is properly positioned.
- Insert a VLD bullet into the case mouth.
- Slowly raise the ram of the reloading press to seat the bullet. Monitor the process to ensure proper seating depth.
- After seating, remove the completed round and inspect for proper bullet seating and alignment.
- Repeat the process for additional rounds, ensuring to check for consistency and accuracy.

Disposal Instructions

- Dispose of any damaged or worn parts in accordance with local waste disposal regulations.
- Do not dispose of any reloading materials or components in regular household waste.
- Contact local authorities or waste management facilities for guidance on the proper disposal of hazardous materials.

Contact Information for Further Support

For additional support or inquiries regarding the L.E. Wilson VLD Seating Stem, please refer to the product packaging for contact details or visit the official website.

By following these guidelines, you can ensure the safe and effective use of the L.E. Wilson VLD Seating Stem. Thank you for prioritizing safety in your reloading practices.
