

# CONTOUR #3 BARREL - SHILEN 25 CALIBER 1-10 TWIST #3 CHROME MOLY BARREL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Blanks](#)

## Contour #3 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

## Attributes

- Name: [SHILEN 25 CALIBER 1-10 TWIST #3 CHROME MOLY BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787257103
- Mfr. No.: 257103CM
- Caliber: 25 Caliber (.257)
- Contour: #3
- Material: Chrome Moly Steel
- Style: Match-Grade
- Twist: 1-10
- Delivery weight: 1.52kg
- Shipping height: 28mm
- Shipping width: 28mm
- Shipping length: 660mm

## Item details

Made in USA

US export classification: 0A501.c

# CONTOUR #3 BARREL SHILEN 25 CALIBER 110 TWIST #3 CHROME MOLY BARREL Safety Instructions

## Introduction

Thank you for choosing the CONTOUR #3 BARREL SHILEN 25 CALIBER 110 TWIST #3 CHROME MOLY BARREL. This document provides essential safety instructions to ensure safe and effective use of your barrel. Please read this guide carefully before installation and usage.

## General Safety Guidelines

To ensure the safe use of this product, please adhere to the following guidelines:

- Always handle firearms and firearm components with care.
- Ensure that the barrel is installed by a qualified gunsmith to avoid potential hazards.
- Regularly inspect the barrel for signs of wear or damage.
- Follow all local laws and regulations regarding firearms and accessories.
- Use appropriate personal protective equipment (PPE) when handling or installing the barrel.

## Specific Safety Precautions for Use

When using the CONTOUR #3 BARREL, please observe the following precautions:

- **Never attempt to modify the barrel:** Modifications can compromise safety and performance.
- **Always ensure the firearm is unloaded** before installing or handling the barrel.
- **Use only compatible ammunition:** Ensure that the ammunition used matches the caliber specifications of the barrel.
- **Check for proper installation:** Ensure the barrel is securely attached before using the firearm.
- **Avoid exposure to extreme temperatures:** Excessive heat or cold can affect barrel performance.

## Instructions for Installation and Usage

Follow these instructions carefully to ensure proper installation and safe use of the barrel:

### 1. Installation:

- Ensure you have the necessary tools and equipment.
- Remove the existing barrel from the firearm according to the manufacturer's instructions.
- Inspect the receiver and ensure it is free of debris and damage.
- Align the CONTOUR #3 BARREL with the receiver and secure it according to the manufacturer's specifications.
- Doublecheck that all screws and fittings are tightened properly.

### 2. Usage:

- Always wear appropriate eye and ear protection when firing.
- Fire the weapon in a safe and controlled environment.
- Regularly clean and maintain the barrel to ensure optimal performance.
- Keep the firearm pointed in a safe direction at all times.

## **Disposal Instructions**

When disposing of the barrel or any firearm components, please follow these guidelines:

- Do not dispose of firearms or firearm components in regular trash.
- Contact your local waste management authority for proper disposal methods.
- Ensure that the barrel is rendered inoperable before disposal.

## **Contact Information for Further Support**

For any questions regarding safety or product performance, please consult with a qualified gunsmith or contact the manufacturer directly. Always ensure that you are following the latest safety guidelines and local regulations.

Thank you for your attention to these safety instructions. Your safety and the safety of others is paramount. Enjoy your shooting experience with the CONTOUR #3 BARREL!
