

CONTOUR #7, 8 & 9 BARREL - SHILEN CONTOUR #7 7MM, 9 TWIST, CM

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Blanks](#)

Contours #7, 8 & 9 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003". No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Attributes

- Name: [SHILEN CONTOUR #7 7MM, 9 TWIST, CM](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787284097
- Mfr. No.: 7MM97CM
- Caliber: 284/7 mm (.284)
- Contour: #7
- Material: Chrome Moly Steel
- Style: Match-Grade
- Twist: 1-9
- Delivery weight: 3.107kg
- Shipping height: 28mm
- Shipping width: 30mm
- Shipping length: 711mm

Safety Instruction Guide for CONTOUR #7, 8 & 9 BARREL SHILEN CONTOUR #7 7MM, 9 TWIST, CM

Introduction

Thank you for choosing the CONTOUR #7, 8 & 9 Barrel Shilen. This guide provides essential safety information and instructions to ensure the safe use and handling of this product. Please read and follow these guidelines carefully to maximize safety and performance.

General Safety Guidelines

- Ensure that all users of this product are familiar with basic firearm safety practices.
- Always treat the barrel as if it is loaded, even when it is not.
- Store the barrel in a secure location, away from unauthorized access, especially by children.
- Inspect the barrel regularly for signs of damage or wear before each use.
- Follow all local laws and regulations regarding firearm components and usage.

Specific Safety Precautions for Use

- Only use the barrel with compatible firearms that are designed for the specified caliber (.284/7 mm).
- Avoid using ammunition that exceeds the recommended specifications for the barrel.
- Ensure the barrel is properly installed by a qualified gunsmith to avoid malfunctions.
- Do not modify the barrel in any way that could compromise its integrity or safety.
- Be aware of the potential for ricochet and ensure a safe shooting environment.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction before beginning installation.
- Remove the existing barrel from the firearm according to the manufacturer's instructions.
- Inspect the threads and chamber of the firearm for cleanliness and damage.
- Carefully screw the new barrel into the receiver, ensuring it is aligned properly.
- Torque the barrel to the specifications provided by the firearm manufacturer using the appropriate tools.

2. Usage:

- Before firing, doublecheck that the firearm is assembled correctly and that the barrel is securely attached.
- Use the firearm in a safe and controlled environment, following all standard shooting practices.
- Regularly clean and maintain the barrel to ensure optimal performance and longevity.
- Monitor for any unusual sounds or behavior during use, and cease firing immediately if any issues arise.

Disposal Instructions

- Dispose of any damaged or worn barrels in accordance with local regulations regarding hazardous materials.
- Do not throw away the barrel in regular trash. Instead, contact local authorities or recycling centers for proper disposal methods.

- Ensure that the barrel is rendered unusable before disposal to prevent unauthorized use.

Contact Information for Further Support

For any inquiries regarding safety, usage, or maintenance of the CONTOUR #7, 8 & 9 Barrel Shilen, please refer to the manufacturer's contact details provided with the product. It is crucial to have a reliable source for assistance and to stay informed about any safety recalls or updates.

Conclusion

By following these safety instructions and guidelines, you can enjoy the benefits of the CONTOUR #7, 8 & 9 Barrel Shilen while prioritizing safety and compliance with the EU General Product Safety Regulation. Always stay informed and vigilant to ensure a safe shooting experience.
