

# CONTOUR #5 BARREL - SHILEN 30 CALIBER 1-12 TWIST #5 CHROME MOLY BARREL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Blanks](#)

## Contour #5 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003". No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

## Attributes

- Name: [SHILEN 30 CALIBER 1-12 TWIST #5 CHROME MOLY BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787308125
- Mfr. No.: 30125CM
- Caliber: 30 Caliber (.308)
- Contour: #5
- Material: Chrome Moly Steel
- Style: Match-Grade
- Twist: 1-12
- Delivery weight: 1.928kg
- Shipping height: 28mm
- Shipping width: 30mm
- Shipping length: 711mm

## **Item details**

Made in USA

US export classification: 0A501.c

# **Safety Instruction Guide for CONTOUR #5 BARREL SHILEN 30 CALIBER 112 TWIST #5 CHROME MOLY BARREL**

## **Introduction**

Thank you for choosing the CONTOUR #5 BARREL SHILEN 30 CALIBER 112 TWIST #5 CHROME MOLY BARREL. This safety instruction guide provides important information to ensure the safe use, installation, and disposal of the product. Please read this guide carefully before using the barrel to maximize safety and performance.

## **General Safety Guidelines**

- Ensure you are familiar with local laws and regulations regarding firearm components.
- Always handle firearms and their components with care and respect.
- Use appropriate protective gear, including safety glasses and gloves, when handling the barrel.
- Store the barrel in a secure location, away from unauthorized access, particularly by children.
- Regularly inspect the barrel for any signs of damage or wear before use.
- Report any unsafe products or incidents to the appropriate authorities.

## **Specific Safety Precautions for Use**

- Only use the barrel with compatible firearms that meet the specifications outlined in the product details.
- Avoid using the barrel with ammunition that exceeds the recommended caliber specifications.
- Ensure the barrel is properly installed according to the manufacturer's guidelines to avoid misfires or accidents.
- Never modify the barrel without consulting a qualified gunsmith.
- Be aware of the potential hazards associated with improper use, including injury or damage to the firearm or user.

## **Instructions for Installation and Usage**

### **1. Installation:**

- Ensure the firearm is unloaded and pointed in a safe direction before beginning installation.
- Remove the existing barrel from the firearm following the manufacturer's instructions.
- Clean the receiver to remove any debris or residue.
- Align the CONTOUR #5 BARREL with the receiver and secure it according to the manufacturer's specifications.
- Check that the barrel is tightly fitted and does not wobble or move.

### **2. Usage:**

- Before firing, ensure that the barrel is clean and free from obstructions.
- Use only ammunition that is specified for the 30 Caliber (.308) and is compatible with the barrel.
- Regularly clean the barrel after use to maintain performance and prevent corrosion.
- Always follow safe shooting practices and be aware of your surroundings while shooting.

## **Disposal Instructions**

- Dispose of the barrel in accordance with local regulations regarding firearms and firearm components.
- If the barrel is damaged or no longer usable, consult with a certified firearms dealer or gunsmith for proper disposal methods.

- Do not discard the barrel in regular waste; ensure it is disposed of in a safe and responsible manner.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or installation of the CONTOUR #5 BARREL SHILEN 30 CALIBER 112 TWIST #5 CHROME MOLY BARREL, please consult with a qualified gunsmith or contact your local firearms dealer.

Thank you for ensuring safe practices and compliance with the EU General Product Safety Regulation (GPSR). Your safety and satisfaction are our top priorities.
