

CONTOUR #2 - SHILEN 25 CALIBER 1-10 TWIST #2 STAINLESS BARREL

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Blanks](#)

Contour #2 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003". No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Attributes

- Name: [SHILEN 25 CALIBER 1-10 TWIST #2 STAINLESS BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787925102
- Mfr. No.: 257102SS
- Caliber: 25 Caliber (.257)
- Contour: #2
- Material: Stainless Steel
- Style: Match-Grade
- Twist: 1-10
- Delivery weight: 1.361kg
- Shipping height: 28mm
- Shipping width: 28mm
- Shipping length: 660mm

CONTOUR #2 SHILEN 25 CALIBER 110 TWIST #2 STAINLESS BARREL Safety Instruction Guide

Introduction

Thank you for choosing the CONTOUR #2 SHILEN 25 CALIBER 110 TWIST #2 STAINLESS BARREL. This guide provides important safety information and instructions to ensure the safe use of this product. Please read this document carefully to understand how to handle and maintain your barrel properly.

General Safety Guidelines

- Always handle firearms and firearm components with care and respect.
- Ensure that you are familiar with the laws and regulations regarding firearms in your area.
- Keep the barrel and all firearm components out of reach of children and unauthorized users.
- Regularly inspect the barrel for any signs of damage or wear before use.
- Use appropriate safety gear, including eye protection, when handling firearms.
- Never exceed the recommended caliber specifications for your barrel.
- Follow all manufacturer instructions for installation and usage to avoid accidents.

Specific Safety Precautions for Use

- Ensure that the barrel is compatible with your firearm before installation.
- Check that the firearm is unloaded before attaching or detaching the barrel.
- Avoid using reloaded ammunition unless it has been verified as safe and suitable for use with your barrel.
- Store the barrel in a cool, dry place to prevent corrosion and damage.
- Do not attempt to modify or alter the barrel in any way, as this may compromise safety and performance.
- If you notice any unusual sounds, recoil, or performance issues while shooting, cease use immediately and have the barrel inspected by a qualified gunsmith.

Instructions for Installation and Usage

1. Installation of the Barrel:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Remove the existing barrel from the firearm according to the manufacturer's instructions.
- Align the new CONTOUR #2 SHILEN barrel with the receiver and securely attach it, following the torque specifications provided by the firearm manufacturer.
- Doublecheck that the barrel is properly installed and secure before proceeding.

2. Usage of the Barrel:

- Load the firearm with appropriate ammunition as specified for the 25 caliber (.257) barrel.
- Always maintain proper shooting stance and ensure a clear line of sight before firing.
- After each use, clean the barrel according to the manufacturer's cleaning instructions to maintain optimal performance and longevity.

Disposal Instructions

- Dispose of the barrel in accordance with local regulations regarding firearm components.
- If the barrel is damaged or no longer in use, contact a local firearms dealer or gunsmith for safe disposal options.
- Do not dispose of the barrel in regular waste.

Contact Information for Further Support

For safety inquiries or further assistance regarding your CONTOUR #2 SHILEN barrel, please refer to the manufacturer's official website or customer service resources.

By following these safety guidelines and instructions, you can ensure the safe and effective use of your CONTOUR #2 SHILEN 25 CALIBER 110 TWIST #2 STAINLESS BARREL. Always prioritize safety and seek professional advice if you have any doubts or questions regarding the use of your firearm and its components.
