[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Blanks](#)

## **Contour #3 in Chrome Moly or Stainless Steel**

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope in- spected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

## Attributes

- Name: [SHILEN 25 CALIBER 1-10 TWIST #3 STAINLESS BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787925103
- Mfr. No.: 257103SS
- Caliber: 25 Caliber (.257)
- Contour: #3
- Material: Stainless Steel
- Style: Match-Grade
- Twist: 1-10
- Delivery weight: 1.52kg
- Shipping height: 28mm
- Shipping width: 28mm
- Shipping length: 660mm

## Item details

Made in USA

US export classification: 0A501.c

# CONTOUR #3 BARREL SHILEN 25 CALIBER 110 TWIST #3 STAINLESS BARREL Safety Instruction Guide

## Introduction

Thank you for choosing the CONTOUR #3 BARREL SHILEN 25 CALIBER 110 TWIST #3 STAINLESS BARREL. This manual provides essential safety information to ensure the safe use and handling of your barrel. Please read and understand these instructions thoroughly before use.

## General Safety Guidelines

- Always treat the barrel as if it is loaded.
- Ensure that the barrel is installed correctly and securely before use.
- Regularly inspect the barrel for any signs of damage or wear.
- Use only compatible ammunition as specified by the manufacturer.
- Store the barrel in a cool, dry place, away from direct sunlight.
- Keep the barrel out of reach of children and unauthorized users.
- Follow all local, state, and national laws regarding firearm use and ownership.

## Specific Safety Precautions for Use

### • Installation Safety:

- Ensure that the firearm is unloaded before installing the barrel.
- Use appropriate tools and follow the manufacturer's instructions for installation.

### • Usage Safety:

- Do not exceed the recommended caliber specifications.
- Avoid using damaged or suspect barrels; report any concerns immediately.
- Wear appropriate safety gear, such as eye and ear protection, when firing.

### • Maintenance Safety:

- Clean the barrel regularly to prevent corrosion and buildup.
- Use cleaning products that are suitable for stainless steel barrels.
- Inspect the barrel for any signs of pitting or erosion after each use.

## Instructions for Installation and Usage

### 1. Installation Instructions:

- Ensure the firearm is completely unloaded.
- Remove the existing barrel as per the manufacturer's guidelines.
- Align the new CONTOUR #3 barrel with the receiver of the firearm.
- Securely tighten the barrel using the appropriate tools.
- Verify that the barrel is properly seated and locked in place.

### 2. Usage Instructions:

- Load the firearm with the appropriate .25 caliber ammunition.

- Aim in a safe direction and ensure the area is clear of obstructions and bystanders.
- Follow standard firearm safety protocols while shooting.
- After use, unload the firearm and inspect the barrel for any signs of wear or damage.

## Disposal Instructions

- Dispose of the barrel in accordance with local regulations for metal recycling or hazardous waste.
- Do not dispose of the barrel in regular household waste.
- If the barrel is damaged beyond repair, consult local authorities for proper disposal methods.

## Contact Information for Further Support

For any safety inquiries or concerns regarding your CONTOUR #3 BARREL SHILEN 25 CALIBER 110 TWIST #3 STAINLESS BARREL, please refer to the manufacturer's contact details provided with the product.

## Conclusion

Following these safety guidelines and instructions will help ensure a safe and enjoyable experience with your CONTOUR #3 BARREL SHILEN 25 CALIBER 110 TWIST #3 STAINLESS BARREL. Always prioritize safety and adhere to best practices for firearm handling and maintenance. Thank you for your attention to these important safety instructions.
