

CONTOUR #5 BARREL - SHILEN 6.5MM 1-9 TWIST #5 STAINLESS BARREL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Blanks](#)

Contour #5 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Attributes

- Name: [SHILEN 6.5MM 1-9 TWIST #5 STAINLESS BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787926095
- Mfr. No.: 6595SS
- Caliber: 264/6.5 mm (.264)
- Contour: #5
- Material: Stainless Steel
- Style: Match-Grade
- Twist: 1-9
- Delivery weight: 1.95kg
- Shipping height: 13mm
- Shipping width: 28mm
- Shipping length: 711mm

Safety Instruction Guide for CONTOUR #5 BARREL SHILEN 6.5MM 19 TWIST #5 STAINLESS BARREL

Introduction

Thank you for choosing the CONTOUR #5 BARREL SHILEN 6.5MM 19 TWIST #5 STAINLESS BARREL. This safety instruction guide is designed to provide you with essential information to ensure safe usage, installation, and disposal of the product. It is important to read this guide thoroughly before using the barrel to ensure your safety and the safety of others.

General Safety Guidelines

- Always handle the barrel with care to avoid injury.
- Ensure the barrel is installed by a qualified gunsmith to guarantee proper fitting and safety.
- Regularly inspect the barrel for any signs of damage or wear.
- Store the barrel in a safe and dry place, away from children and unauthorized users.
- Follow all local laws and regulations regarding firearm components and usage.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the barrel is compatible with your firearm before installation.
- Do not use the barrel if it shows any signs of damage or if you suspect it may be defective.
- Always wear appropriate safety gear, including eye protection, when handling or firing a firearm.
- Avoid using the barrel with ammunition that exceeds its specifications.
- Keep the barrel clean and maintained to ensure optimal performance and safety.
- If you notice any unusual behavior during firing (e.g., excessive recoil, misfires), discontinue use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and in a safe condition before beginning installation.
- Remove the old barrel following the manufacturer's instructions.
- Align the new CONTOUR #5 BARREL with the receiver and ensure it fits properly.
- Secure the barrel using the appropriate tools and follow the torque specifications provided by the firearm manufacturer.
- After installation, check for proper alignment and function before use.

2. Usage:

- Always check the barrel for obstructions before loading ammunition.
- Use only the recommended caliber (.264/6.5 mm) ammunition for this barrel.
- Follow all firearm safety protocols when handling and firing your weapon.
- Clean the barrel regularly to maintain performance and prevent fouling.

Disposal Instructions

- When disposing of the barrel, follow local regulations regarding the disposal of firearm components.
- If the barrel is damaged or no longer usable, consider contacting a recycling center that handles metal products.
- Do not discard the barrel in regular waste; ensure it is disposed of in a manner that complies with local

laws.

Contact Information for Further Support

For any questions or concerns regarding the CONTOUR #5 BARREL SHILEN 6.5MM 19 TWIST #5 STAINLESS BARREL, please refer to your supplier or manufacturer for assistance. It is essential to seek professional advice if you have any uncertainties about the safety or installation of this product.

By following these safety instructions, you can ensure the safe and effective use of your CONTOUR #5 BARREL SHILEN 6.5MM 19 TWIST #5 STAINLESS BARREL. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
