

CONTOUR #4 BARREL...BY SHILEN - SHILEN 338 CALIBER 1-10 TWIST #4 STAINLESS BARREL

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Blanks](#)

Contour #4 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Attributes

- Name: [SHILEN 338 CALIBER 1-10 TWIST #4 STAINLESS BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787933104
- Mfr. No.: 338104SS
- Caliber: 338 Caliber (.338)
- Cartridge: -
- Contour: #4
- Material: Stainless Steel
- Style: Match-Grade
- Twist: 1-10
- Delivery weight: 1.61kg
- Shipping height: 28mm
- Shipping width: 28mm

- Shipping length: 711mm

CONTOUR #4 BARREL Safety Instruction Guide

Introduction

Thank you for choosing the CONTOUR #4 BARREL by Shilen. This guide is designed to ensure safe usage and maintenance of your barrel, in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully to understand the safety precautions and proper handling of your product.

General Safety Guidelines

- Ensure that the barrel is installed by a qualified gunsmith to avoid improper handling and potential accidents.
- Always handle firearms with care and follow standard safety practices.
- Store the barrel in a safe and dry location to prevent corrosion and damage.
- Regularly inspect the barrel for any signs of wear or damage.
- If you notice any irregularities or defects, cease use immediately and consult a professional.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when handling or using firearms.
- Ensure that the firearm is unloaded before installing or removing the barrel.
- Keep the barrel away from heat sources and open flames to prevent damage.
- Do not attempt to modify or alter the barrel in any way.
- Be aware of your surroundings and ensure that you are in a safe environment when using the firearm.

Instructions for Installation and Usage

• Installation:

1. Consult the firearm's manual for specific installation instructions.
2. Ensure that the firearm is unloaded and pointed in a safe direction.
3. Remove the existing barrel if applicable, following the manufacturer's instructions.
4. Carefully align the CONTOUR #4 BARREL with the receiver of the firearm.
5. Securely fasten the barrel using the appropriate tools and follow torque specifications as provided by the firearm's manufacturer.
6. Inspect the installation to ensure proper alignment and fit.

• Usage:

1. Always check that the barrel is properly installed before use.
2. Load ammunition according to the manufacturer's specifications for your firearm.
3. Follow standard safety procedures when firing the firearm.
4. After use, clean the barrel according to the recommended cleaning procedures to maintain performance and longevity.

Disposal Instructions

- Dispose of the barrel in accordance with local regulations and guidelines.
- Do not dispose of the barrel in regular household waste.
- Contact local recycling or waste management facilities for proper disposal methods.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience with your CONTOUR #4 BARREL. Always prioritize safety and proper handling to maintain the integrity of your equipment and the safety of yourself and others. Thank you for your attention to these important guidelines.
