# **GUNSMITH INSTALLATION JIG SMITH & ALEXANDER INSTALLATION JIG Safety Instructions**

## **Introduction**

Thank you for purchasing the GUNSMITH INSTALLATION JIG by SMITH & ALEXANDER. This product is designed to assist in the installation of grip safeties on firearms. To ensure safe and effective use, please read this safety instruction guide carefully.

## **General Safety Guidelines**

- Always ensure the workspace is clean and free from distractions before beginning installation.
- Keep the installation jig and all tools out of reach of children and vulnerable individuals.
- Use the installation jig only for its intended purpose as described in this guide.
- Regularly inspect the installation jig for any signs of damage or wear before use.
- Wear appropriate personal protective equipment (PPE), such as safety glasses, while using the installation jig.

## **Specific Safety Precautions for Use**

- Ensure that the firearm is unloaded and that the magazine is removed before starting any installation work.
- Do not apply excessive force when using the installation jig to avoid damaging the jig or the firearm.
- Be cautious of sharp edges on the jig and tools to prevent cuts or injuries.
- Avoid using the installation jig in wet or humid conditions to prevent rusting or damage to the jig.
- Follow all local laws and regulations regarding firearm modifications and installations.

## **Instructions for Installation and Usage**

### **1. Preparation**

- Gather all necessary tools, including the installation jig, hardened steel buttons, teflon washers, and a lock nut.
- Ensure that the firearm is unloaded and secured in a stable position.

### **2. Installation Steps**

- Attach the hardened steel buttons to the installation jig according to the included instructions.
- Align the installation jig with the grip safety area of the firearm.
- Use simple hand tools to secure the jig in place, ensuring it is tightly fitted but not overly tightened.
- Follow the manufacturer's instructions for the specific grip safety installation process, using the correct .250" radius for proper fit.
- After installation, remove the installation jig carefully and check the grip safety for proper function.

### **3. PostInstallation Check**

- Conduct a thorough inspection of the firearm to ensure all components are properly installed and functioning.
- Test the grip safety to confirm it operates correctly before using the firearm.

## **Disposal Instructions**

- Dispose of any packaging materials responsibly, following local recycling guidelines.
- If the installation jig is damaged beyond repair, dispose of it in accordance with local waste disposal regulations.

## **Contact Information for Further Support**

For any inquiries regarding safety or product usage, please refer to the contact information provided with your product packaging.

By following these safety instructions, you can ensure the safe and effective use of the GUNSMITH INSTALLATION JIG by SMITH & ALEXANDER. Always prioritize safety and compliance with local regulations when working with firearms.
