

# **HOT STUFF INSTANT GLUE - SATELLITE CITY 2 OZ. HOT STUFF**

[Gunsmith Tools & Supplies](#) > [Stock Work & Finishing](#) > [Glue & Adhesives](#)

## **Repairs Wooden Stocks, Fixes Gun Parts In As Little As Five Seconds**

Quick bonding, industrial-grade, cyanoacrylate adhesives make short work of clear finish filling, fiberglass and wooden stock repairs, sight mounting and general shop work. Bonds almost instantly to leather, vinyl, rubber, wood, laminates, plastic, fiberglass and Kevlar. Most repairs require only a drop. Original Formula - ultra thin; wicks into the smallest crack and bonds in only five seconds. Use to make invisible repairs on wooden stocks, and fill chips in clear finishes. Super T - Thick consistency to fill gaps and voids on rough surfaces. 10 to 25 second working time.

# Safety Instruction Guide for HOT STUFF INSTANT GLUE

## Introduction

Thank you for choosing HOT STUFF INSTANT GLUE by Satellite City. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the glue.

## General Safety Guidelines

- Always use the product in a wellventilated area to avoid inhaling fumes.
- Keep the product out of reach of children and pets.
- Avoid contact with skin and eyes. In case of contact, rinse immediately with plenty of water.
- Do not ingest the product. If swallowed, seek medical attention immediately.
- Use appropriate personal protective equipment (PPE) such as gloves and safety goggles if necessary.
- Store the glue in a cool, dry place away from direct sunlight and heat sources.
- Dispose of any unused product according to local regulations.

## Specific Safety Precautions for Use

- Ensure surfaces to be bonded are clean, dry, and free from dust or grease.
- Apply only a small amount of glue, as most repairs require only a drop.
- Avoid using the glue on surfaces that will be exposed to extreme temperatures or moisture unless specified.
- Do not use the glue near open flames or sparks, as it is flammable.
- Be cautious when using the thick consistency (Super T) formula to avoid overfilling gaps.
- Allow sufficient time for the glue to cure before handling the bonded items.

## Instructions for Installation and Usage

### 1. Preparation:

- Clean the surfaces to be bonded with a suitable cleaner.
- Ensure that the surfaces are completely dry.

### 2. Application:

- Open the applicator tip bottle carefully.
- For the original formula, apply a drop to one surface. For Super T, apply to the gap or void.
- Press the surfaces together firmly for a few seconds.

### 3. Curing:

- Allow the glue to bond for approximately 5 seconds for the original formula and 10 to 25 seconds for Super T.
- For best results, avoid moving the bonded surfaces during the curing time.

### 4. Cleanup:

- If glue spills occur, wipe with a dry cloth immediately.
- Use acetone or nail polish remover to clean any excess glue from surfaces.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- Do not pour glue down the drain or throw it in regular trash.
- Check for local hazardous waste disposal guidelines for proper disposal methods.

## **Contact Information for Further Support**

For safety inquiries or additional information, please refer to the manufacturer's contact details provided on the product packaging or visit the official website.

By following these safety instructions, you can ensure a safe and effective experience with HOT STUFF INSTANT GLUE. Thank you for your attention to these important guidelines.
