

SKYLINE UNIVERSAL SCOPE LEVEL - WARNE MFG. COMPANY

SKYLINE PRECISION MOUNT LEVEL

[Optics & Mounting](#) > [Optic Accessories](#) > [Scope Anti-Cant Devices](#)

The Warne M927/929BB low-profile scope base from Warne Scope Mounts for Browning X-Bolt centerfire bolt-action rifles is available with a burnt bronze finish to complement your rifle. The low-profile design allows you to use iron sights when the rifle's optics are removed. This sleek low-profile fitment also avoids the unwanted look of a clunky accessory. Full width and depth recoil slots produce a maximum bearing surface for improved recoil key engagement. Better recoil control equals better performance, which is why Warne focuses on making fitments that help you better manage the recoil that occurs when you fire your rifle in the field or at a shooting range. Precision Mount Bubble Level Attaches exclusively to the top of the Precision Mount, in left or right configurations, to keep the scope reticle consistently level. Keeping the scope reticle consistently level is critical as target distances increase, Warne's new Skyline Universal Scope Level allows shooters to easily keep the reticle level without changing their position on the rifle. Whether moving through thick brush or storing your rifle in a case or scabbard, their patent pending design allows the shooter to deploy or stow the indicator with a simple push or pull. Easily attaches to your scope tube for right or left hand configurations.

Safety Instruction Guide for SKYLINE UNIVERSAL SCOPE LEVEL

Introduction

Thank you for choosing the SKYLINE UNIVERSAL SCOPE LEVEL from Warne MFG. Company. This product is designed to enhance your shooting experience by providing a reliable way to keep your scope reticle level. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always ensure the scope level is securely attached before use.
- Inspect the product regularly for any signs of wear or damage.
- Use the product only for its intended purpose as described in this guide.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Do not attempt to modify or alter the scope level in any way.
- Ensure that the scope level is compatible with your specific rifle model.
- Avoid using the product in extreme weather conditions that may affect its performance.
- When storing your rifle with the scope level attached, ensure it is in a secure and safe location.
- If you experience any issues with the product, cease use immediately and consult a professional.

Instructions for Installation and Usage

1. Installation:

- Ensure your rifle is unloaded before installation.
- Locate the top of the Precision Mount on your rifle.
- Attach the Precision Mount Bubble Level to the top of the mount, ensuring it is securely fastened.
- Adjust the level to your preferred left or right configuration.

2. Usage:

- Once installed, look through your scope to check if the reticle is level.
- If necessary, make adjustments to the level until it is properly aligned.
- Use the scope level to maintain a consistent reticle position while aiming at targets.
- When moving through thick brush or storing your rifle, deploy or stow the indicator with a simple push or pull.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any questions or concerns regarding the SKYLINE UNIVERSAL SCOPE LEVEL, please refer to the official Warne MFG. Company website or reach out to their customer support for assistance.

By following these safety instructions, you can ensure a safe and enjoyable experience with your SKYLINE UNIVERSAL SCOPE LEVEL. Thank you for your attention to safety.
