Ultra-Reliable, Extra-Capacity & Smooth Feeding Of All The Rounds Wilson Combat applied 30 years of experience building high-performance 1911 magazines to develop this ultra-reliable magazine for combat, competition, or self-defense. Made with state-of-the-art materials using the latest manufacturing technology, these single-stack magazines are built tough to keep running in unforgiving, real-world conditions. The body is formed from extra-thick stainless steel, with the radius of each curve engineered to minimize stress points, virtually eliminates feed lip cracking and stress fatigue. Even the position of the witness slots toward the rear is designed to enhance structural integrity. A proprietary welding, deburring, and polishing process provides an unusually strong, super-smooth seam to ensure snag-free follower movement and easy insertion in the mag well. The non-tilt follower of self-lubricating polymer fully supports the ammo stack to prevent nose-dives, double feeds, and other hang-ups. The mag body design puts less tension on the spring than standard magazines, increasing spring life and making it easy to seat a fully loaded magazine with the slide closed. The polymer base pad adds minimal bulk yet ensures a firm purchase even when your hands are wet; removes easily for cleaning. Numbers 1 through 10 stamped on the bottom help you mark each of your magazines to track usage and performance. .45 ACP fits Gov't Model; 8 round capacity; round-count numbers stamped on body next to witness holes. Available in natural Silver or Black Oxide finish in singles or in convenient, money-saving 3-Paks with or without a Michael's of Oregon double mag pouch of rugged, high-impact Kydex® molded polymer. ETM MAX Magazines feature the MAX flatwire magazine springs. The heat-treated MAX flatwire construction never gets stressed or over-compressed like a conventional spring and is guaranteed to never require replacement even after high round counts or daily, extreme duty use. Maximum strength-up to 25% stronger than standard 1911 mag springs for superior reliability with defensive and +P loads and more positive slide lockback. Maximum longevity MAX flatwire spring will never lose optimum feeding tension as long as you own the magazine -guaranteed! Extensively tested by the Wilson Combat Shooting Team and test fire crew. Maximum corrosion resistance-heat treated stainless MAX spring won't corrode in high humidity or marine environments-a leading cause of service pistol spring fatigue.

Attributes

- Name: [WILSON COMBAT 1911 FS ELITE TACTICAL MAG-45ACP-8 RD-LO-PROFILE-BLACK](#)
- Manufacturer: [WILSON COMBAT](#)
- Product no.: 965000244

Safety Instruction Guide for ELITE TACTICAL 1911 45 ACP Low Profile Handgun Magazine

Introduction

Thank you for choosing the ELITE TACTICAL 1911 45 ACP Low Profile Handgun Magazine by Wilson Combat. This product is designed for high performance and reliability in various conditions. To ensure safe usage and optimal performance, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the magazine is compatible with your firearm model before use.
- Always handle firearms and magazines with care, treating them as if they are loaded.
- Store the magazine in a secure place, away from children and unauthorized users.
- Regularly inspect the magazine for signs of wear, damage, or corrosion.
- Follow all local laws and regulations regarding the use and storage of firearms and ammunition.
- Use only .45 ACP ammunition that is compatible with your firearm and magazine.

Specific Safety Precautions for Use

- Always keep the firearm pointed in a safe direction when loading or unloading the magazine.
- Do not exceed the magazine's specified capacity of 8 rounds.
- Avoid using damaged or worn magazines to prevent malfunctions.
- Ensure that the magazine is properly seated in the firearm before use.
- Do not attempt to modify the magazine or its components.
- If the magazine malfunctions, cease use immediately and have it inspected by a qualified gunsmith.

Instructions for Installation and Usage

1. Loading the Magazine:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Press down on the follower using your thumb to create space for the first round.
- Insert the .45 ACP round into the magazine, ensuring the bullet is facing forward.
- Repeat until the magazine is loaded to the desired capacity (maximum 8 rounds).

2. Inserting the Magazine into the Firearm:

- With the firearm in a safe direction, align the magazine with the magazine well.
- Firmly push the magazine into the well until it clicks into place.

3. Removing the Magazine:

- Ensure the firearm is pointed in a safe direction.
- Press the magazine release button to remove the magazine from the firearm.
- Store the magazine in a secure location.

4. Cleaning and Maintenance:

- Regularly clean the magazine to ensure optimal performance.
- Use a soft cloth to remove dirt and debris from the exterior.
- Inspect the follower and spring for wear and replace if necessary.

Disposal Instructions

- Dispose of the magazine according to local regulations regarding firearms accessories.
- If the magazine is damaged beyond repair, ensure that it is rendered unusable before disposal.
- Recycle materials where possible, following local recycling guidelines.

Contact Information for Further Support

For any safety inquiries or assistance regarding the ELITE TACTICAL 1911 45 ACP Low Profile Handgun Magazine, please refer to the manufacturer's contact information provided with the product packaging.

By following these guidelines, you can ensure safe and effective use of your ELITE TACTICAL 1911 45 ACP Low Profile Handgun Magazine. Always prioritize safety and compliance with local laws and regulations. Thank you for your attention to these important safety instructions.
