Safety Instruction Guide for #176 Ruger Single Action Spring Kit

Introduction

Thank you for choosing the #176 Ruger Single Action Spring Kit from Wilson Combat. This product is designed to enhance the performance of your handgun. To ensure safe and effective use, please read and follow this safety instruction guide carefully.

General Safety Guidelines

- Ensure that the firearm is unloaded before installation or handling of the spring kit.
- Always wear appropriate safety gear, including eye protection, when working with firearms.
- Store the spring kit in a secure location, out of reach of children and unauthorized users.
- Be aware of your surroundings and ensure that you are in a safe environment when using your firearm.
- Regularly inspect the springs and other components for signs of wear or damage.

Specific Safety Precautions for Use

- The springs in this kit are designed for use with the Ruger Single Action handgun only. Do not attempt to use them with other firearms.
- Follow the manufacturer's specifications for installation to avoid potential hazards.
- Do not exceed the recommended specifications for spring tension, as this may lead to malfunction or injury.
- If you are unsure about the installation or use of this product, seek assistance from a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools, including a screwdriver and any other required tools as specified in your firearm's manual.

2. Installation:

- Remove the grip panels from the handgun to access the internal components.
- Carefully remove the existing trigger and hammer springs, taking note of their orientation.
- Install the new springs from the #176 Ruger Single Action Spring Kit:
 - **30 oz. RP Trigger Spring:** Insert the reduced power trigger spring in the same orientation as the original.
 - **19 lb. RP Hammer Spring:** Replace the hammer spring with the reduced power hammer spring.
 - **XP Cylinder Latch Spring:** Install the extra power cylinder latch spring as per the original configuration.
- Reassemble the handgun by replacing the grip panels securely.

3. Testing:

- After installation, conduct a function test to ensure that the firearm operates correctly.
- Check that the trigger and hammer function smoothly and that the cylinder latch engages properly.

4. Usage:

- Always handle your firearm with care and respect.
- Follow all local laws and regulations regarding firearm use and safety.

Disposal Instructions

- Dispose of any old springs and packaging materials in accordance with local regulations.
- Do not dispose of springs in a manner that could pose a hazard to others, such as leaving them in public areas.

Contact Information for Further Support

For any inquiries or assistance regarding the #176 Ruger Single Action Spring Kit, please contact the manufacturer directly. Ensure that you have your product information available when seeking assistance.

By following these safety guidelines and instructions, you can help ensure a safe and enjoyable experience with your #176 Ruger Single Action Spring Kit. Thank you for prioritizing safety and performance.
