Carbon fiber is well-suited to the tough tasks assigned to cleaning rods. It combines the best features of stainless steel and coated cleaning rods, then adds valuable properties of its own. Stainless steel rods can scratch or wear barrels if they're used carelessly – though they won't pick up potentially damaging small abrasive particles. "Coated" rods get part of the job done – they keep the stainless steel shaft from damaging your barrel's rifling, but the coating will pick up small abrasive particles, which means you're effectively running fine grit sandpaper through your bore. Carbon fiber rods are the best of both: the carbon fiber can't scratch your bore like stainless steel, and they won't embed like coated rods. Plus, Carbon Fiber rods can be bent to an extreme degree and return to their original straightness. During Operation Iraqi Freedom, US military armorers called on Tipton to provide cleaning rods that would clean service rifles in demanding conditions. It made sense to us: Carbon fiber is an ideal material for cleaning rods. We call these cleaning rods "deluxe" because they feature an ergonomically designed handle that spins on two sets of ball bearings – the result is a cleaning rod that smoothly follows the rifling both pushing and pulling, even while under pressure. The "shank-through" construction also allows the user to apply "reasonable" hammer blows to the end of the cleaning rod to get a tight patch through a bore. Available in four diameters and six lengths to fit most rifles, pistols, and shotguns. Rifle and handgun rods are threaded for 8-32 accessories, except 17 caliber and 20 caliber rods which are threaded 5-40. Shotgun rods are threaded 5/16"-27.

Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod

Safety Instruction Guide

Introduction

Thank you for choosing the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod. This guide provides essential safety instructions and usage guidelines to ensure your safe and effective use of this product. Please read this manual carefully before using the cleaning rod.

General Safety Guidelines

- **Product Safety:** The Tipton Deluxe Cleaning Rod is designed for safe use when following the instructions. Always handle the product with care to avoid accidents.
- **Enhanced Recalls:** In the unlikely event of a safety issue, recall notices will be provided. Ensure you stay informed about any product recalls.
- **Online Shopping:** If purchased online, the same safety standards apply as those in physical stores. Ensure the online platform complies with safety requirements.
- **Special Consumer Focus:** This product is intended for adult use only. Keep out of reach of children to prevent accidental injury.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point provided by your retailer.
- **Rapid Alerts:** Stay updated on product safety through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Avoid Scratching:** Do not use the cleaning rod carelessly, as improper use can scratch or wear the barrel.
- **Use Appropriate Force:** When applying hammer blows to the cleaning rod, ensure they are reasonable to avoid damage to the rod or the firearm.
- **Check for Damage:** Before each use, inspect the cleaning rod for any signs of damage or wear. Do not use if damaged.
- **Safe Handling:** Always handle the cleaning rod with clean hands to avoid transferring dirt or debris that could scratch the bore.
- **Proper Storage:** Store the cleaning rod in a safe, dry place to prevent bending or damage.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary cleaning supplies, including cleaning patches and solvent.

2. Using the Cleaning Rod:

- Insert the cleaning patch onto the end of the cleaning rod.
- Apply a small amount of solvent to the patch if necessary.
- Carefully insert the cleaning rod into the bore of the firearm.
- Rotate the handle to follow the rifling, pushing and pulling gently.
- Avoid excessive force; let the cleaning rod do the work.

3. Cleaning Process:

- Clean from the chamber to the muzzle to prevent debris from moving into the action.

- Use a new patch as needed and repeat the process until the bore is clean.
- After cleaning, run a dry patch through the bore to remove any solvent residue.

4. **PostCleaning:**

- Inspect the cleaning rod for any wear or damage.
- Clean the rod with a soft cloth to remove any debris or solvent.
- Store the cleaning rod properly to maintain its condition.

Disposal Instructions

- **Environmental Considerations:** Dispose of any cleaning patches, solvents, or materials in accordance with local regulations.
- **Cleaning Rod Disposal:** If the cleaning rod becomes damaged beyond use, dispose of it responsibly. Check local guidelines for disposal of carbon fiber materials.

Contact Information for Further Support

For further assistance or inquiries regarding the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod, please refer to the manufacturer's contact information provided at the point of purchase.

By following these safety instructions and guidelines, you can ensure a safe and effective cleaning experience with your Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod. Thank you for your attention to safety.
