Carbon fiber is well-suited to the tough tasks assigned to cleaning rods. It combines the best features of stainless steel and coated cleaning rods, then adds valuable properties of its own. Stainless steel rods can scratch or wear barrels if they're used carelessly – though they won't pick up potentially damaging small abrasive particles. "Coated" rods get part of the job done – they keep the stainless steel shaft from damaging your barrel's rifling, but the coating will pick up small abrasive particles, which means you're effectively running fine grit sandpaper through your bore. Carbon fiber rods are the best of both: the carbon fiber can't scratch your bore like stainless steel, and they won't embed like coated rods. Plus, Carbon Fiber rods can be bent to an extreme degree and return to their original straightness. During Operation Iraqi Freedom, US military armorers called on Tipton to provide cleaning rods that would clean service rifles in demanding conditions. It made sense to us: Carbon fiber is an ideal material for cleaning rods. We call these cleaning rods "deluxe" because they feature an ergonomically designed handle that spins on two sets of ball bearings – the result is a cleaning rod that smoothly follows the rifling both pushing and pulling, even while under pressure. The "shank-through" construction also allows the user to apply "reasonable" hammer blows to the end of the cleaning rod to get a tight patch through a bore. Available in four diameters and six lengths to fit most rifles, pistols, and shotguns. Rifle and handgun rods are threaded for 8-32 accessories, except 17 caliber and 20 caliber rods which are threaded 5-40. Shotgun rods are threaded 5/16"-27.

Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod

Safety Instructions

Introduction

Thank you for choosing the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod. This product is designed for effective and safe cleaning of firearms. It is essential to follow the safety instructions outlined in this guide to ensure proper use and avoid any potential hazards.

General Safety Guidelines

- Always use the cleaning rod as intended to prevent accidents and injuries.
- Ensure that the cleaning rod is suitable for the specific caliber of your firearm.
- Regularly inspect the cleaning rod for any signs of wear or damage before use.
- Keep the cleaning rod out of reach of children and unauthorized users.
- Do not use the cleaning rod if it appears damaged or defective.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.

Specific Safety Precautions for Use

- **Avoid Abrasive Materials:** Do not use the cleaning rod with abrasive materials that could scratch or damage the bore of your firearm.
- **Proper Handling:** Always handle the cleaning rod with care. Avoid excessive force that could bend or break the rod.
- **Use Appropriate Accessories:** Ensure that any accessories used with the cleaning rod are compatible and securely attached.
- **Avoid Contact with Eyes:** Do not point the cleaning rod towards your face or eyes during use.
- **Store Safely:** When not in use, store the cleaning rod in a safe location to prevent accidents.

Instructions for Installation and Usage

1. **Select the Appropriate Rod:** Choose the cleaning rod that matches the caliber of your firearm (2226 Cal).
2. **Attach Accessories:** If using cleaning patches or brushes, securely attach them to the end of the cleaning rod.
3. **Insert the Rod:** Gently insert the cleaning rod into the bore of the firearm, ensuring it follows the rifling.
4. **Clean the Bore:**
 - For pushing: Apply steady pressure while pushing the rod through the bore.
 - For pulling: Pull the rod back out, maintaining a smooth motion.
5. **Use Hammer Blows:** If necessary, apply reasonable hammer blows to the end of the rod to help push a tight patch through the bore. Do this with caution to avoid damaging the rod.
6. **Inspect After Use:** After cleaning, inspect the cleaning rod for any signs of wear or damage.

Disposal Instructions

- Dispose of the cleaning rod responsibly if it becomes damaged or is no longer usable.
- Check local regulations for proper disposal methods for carbon fiber materials.
- Do not dispose of the cleaning rod in regular household waste if it can be recycled.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the use of the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod, please refer to the official Tipton website or contact your local retailer.

Thank you for prioritizing safety while using the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod. Your attention to these guidelines helps ensure a safe and effective cleaning experience.
