Carbon fiber is well-suited to the tough tasks assigned to cleaning rods. It combines the best features of stainless steel and coated cleaning rods, then adds valuable properties of its own. Stainless steel rods can scratch or wear barrels if they're used carelessly - though they won't pick up potentially damaging small abrasive particles. "Coated" rods get part of the job done - they keep the stainless steel shaft from damaging your barrel's rifling, but the coating will pick up small abrasive particles, which means you're effectively running fine grit sandpaper through your bore. Carbon fiber rods are the best of both: the carbon fiber can't scratch your bore like stainless steel, and they won't embed like coated rods. Plus, Carbon Fiber rods can be bent to an extreme degree and return to their original straightness. During Operation Iraqi Freedom, US military armorers called on Tipton to provide cleaning rods that would clean service rifles in demanding conditions. It made sense to us: Carbon fiber is an ideal material for cleaning rods. We call these cleaning rods "deluxe" because they feature an ergonomically designed handle that spins on two sets of ball bearings - the result is a cleaning rod that smoothly follows the rifling both pushing and pulling, even while under pressure. The "shank-through" construction also allows the user to apply "reasonable" hammer blows to the end of the cleaning rod to get a tight patch through a bore. Available in four diameters and six lengths to fit most rifles, pistols, and shotguns. Rifle and handgun rods are threaded for 8-32 accessories, except 17 caliber and 20 caliber rods which are threaded 5-40. Shotgun rods are threaded 5/16"-27.

# Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod Safety Instructions

## Introduction

Thank you for choosing the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod. This product is designed for cleaning firearms safely and effectively. Please read this safety instruction guide carefully to ensure proper use and maintenance of the cleaning rod. Following these guidelines will help you avoid potential hazards and ensure a safe and enjoyable cleaning experience.

## General Safety Guidelines

- Always ensure the firearm is unloaded before using the cleaning rod.
- Keep the cleaning rod out of reach of children and vulnerable individuals.
- Inspect the cleaning rod for any signs of damage before each use. Do not use if damaged.
- Use the cleaning rod only for its intended purpose: cleaning firearms.
- Follow all manufacturer instructions for cleaning and maintaining your firearm.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Avoid Scratching:** Do not apply excessive force while using the cleaning rod to prevent scratching the bore.
- **Watch for Abrasive Particles:** Ensure that the cleaning patches and accessories used with the rod are free from dirt and debris.
- **Handle with Care:** The cleaning rod is designed for flexibility; do not bend it beyond its limits to avoid breakage.
- **Use Appropriate Accessories:** Ensure that all accessories used with the cleaning rod are compatible and securely attached.
- **Proper Grip:** Always hold the cleaning rod by the handle to maintain control during use.
- **Hammer Blows:** If using hammer blows, apply only reasonable force to avoid damaging the cleaning rod or firearm.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is completely unloaded and in a safe condition before beginning the cleaning process.
- Gather all necessary cleaning supplies, including cleaning patches, solvents, and brushes.

### 2. Attaching Accessories:

- Select the appropriate accessory for your cleaning needs.
- Thread the accessory onto the cleaning rod securely, ensuring it is tightly fitted.

### 3. Cleaning Process:

- Insert the cleaning rod into the bore of the firearm gently.
- Use a smooth, backandforth motion to clean the bore, applying light pressure.
- Rotate the cleaning rod as necessary to follow the rifling of the barrel.
- If using a patch, ensure it is properly sized and positioned on the cleaning rod.

#### 4. **PostCleaning:**

- Remove the cleaning rod from the bore carefully.
- Clean any residue from the cleaning rod with a suitable solvent and store it in a safe place.
- Check the firearm for any remaining cleaning materials or debris before reassembling.

## **Disposal Instructions**

- Dispose of any cleaning patches, solvents, or accessories according to local regulations.
- Do not dispose of the cleaning rod in regular household waste if it is damaged. Check local guidelines for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod, please refer to the manufacturer's website or contact your local retailer for assistance. Always ensure that you have access to support for your product needs.

Thank you for prioritizing safety and responsible firearm maintenance. Enjoy using your Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod!
