Carbon fiber is well-suited to the tough tasks assigned to cleaning rods. It combines the best features of stainless steel and coated cleaning rods, then adds valuable properties of its own. Stainless steel rods can scratch or wear barrels if they're used carelessly - though they won't pick up potentially damaging small abrasive particles. "Coated" rods get part of the job done - they keep the stainless steel shaft from damaging your barrel's rifling, but the coating will pick up small abrasive particles, which means you're effectively running fine grit sandpaper through your bore. Carbon fiber rods are the best of both: the carbon fiber can't scratch your bore like stainless steel, and they won't embed like coated rods. Plus, Carbon Fiber rods can be bent to an extreme degree and return to their original straightness. During Operation Iraqi Freedom, US military armorers called on Tipton to provide cleaning rods that would clean service rifles in demanding conditions. It made sense to us: Carbon fiber is an ideal material for cleaning rods. We call these cleaning rods "deluxe" because they feature an ergonomically designed handle that spins on two sets of ball bearings - the result is a cleaning rod that smoothly follows the rifling both pushing and pulling, even while under pressure. The "shank-through" construction also allows the user to apply "reasonable" hammer blows to the end of the cleaning rod to get a tight patch through a bore. Available in four diameters and six lengths to fit most rifles, pistols, and shotguns. Rifle and handgun rods are threaded for 8-32 accessories, except 17 caliber and 20 caliber rods which are threaded 5-40. Shotgun rods are threaded 5/16"-27.

# Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod Safety Instructions

## Introduction

Thank you for choosing the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod. This product is designed to provide efficient and safe cleaning for your shotgun. Please read and understand these safety instructions to ensure proper use and to minimize any risks associated with the product.

## General Safety Guidelines

- Ensure the cleaning rod is used only for its intended purpose: cleaning firearms.
- Always handle firearms safely and in accordance with applicable laws and regulations.
- Keep the cleaning rod out of reach of children and vulnerable individuals.
- Inspect the cleaning rod before each use for any signs of damage or wear.
- Use the cleaning rod in a wellventilated area to avoid inhaling any cleaning solvents or chemicals.
- Avoid using the cleaning rod if you are under the influence of drugs or alcohol.

## Specific Safety Precautions for Use

- **Avoid Abrasive Materials:** Do not use the cleaning rod with abrasive materials that can scratch or damage the firearm's bore.
- **Proper Handling:** Always handle the cleaning rod with care. Do not apply excessive force that could lead to breakage.
- **Use Appropriate Accessories:** Ensure that all accessories used with the cleaning rod are compatible and securely attached.
- **Follow Manufacturer Instructions:** Always refer to the manufacturer's guidelines for cleaning and maintenance of your firearm.
- **Wear Protective Gear:** Consider wearing safety glasses and gloves when cleaning to protect against splashes from solvents and chemicals.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and the chamber is clear before starting the cleaning process.
- Gather all necessary cleaning supplies, including cleaning solvents, patches, and brushes.

### 2. Attaching Accessories:

- Select the appropriate cleaning accessory for your firearm.
- Thread the accessory onto the cleaning rod securely.

### 3. Cleaning Process:

- Insert the cleaning rod into the bore of the firearm gently.
- Use a smooth, backandforth motion to clean the bore without excessive force.
- If necessary, apply cleaning solvent to the patch or brush before insertion.
- After cleaning, remove the rod carefully and clean any accessories used.

### 4. PostCleaning:

- Inspect the firearm to ensure it is clean and free of any cleaning materials.

- Store the cleaning rod in a safe and dry place, away from children.

## **Disposal Instructions**

- Dispose of any used cleaning patches, solvents, or chemicals according to local regulations.
- Do not dispose of the cleaning rod in regular household waste if it is damaged. Contact your local waste management for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod, please refer to the manufacturer's website or customer service for assistance.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective cleaning experience with your Tipton Deluxe 1Piece Carbon Fiber Cleaning Rod. Always prioritize safety and proper handling to enjoy the benefits of this highquality cleaning tool.
