

# Ultra Jag - Ultra Jag 30 / 32 Caliber

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

Take a modern bore solvent and squirt it on a brass cleaning jag. The liquid will turn blue as it drips off the jag - it is working so fast, it starts to dissolve your cleaning jag in front of your eyes! If you are following conventional wisdom "clean until you get a clear patch" you might be in for a long night. Tipton®'s Ultra Jag™ features a patent-pending technology that covers the surface of a traditional push-type jag with solvent-proof material, keeping aggressive modern bore solvents from creating false blue stains that normally indicate copper fouling. When you use Ultra Jags, you will get better, faster cleaning results because you will know you are getting blue stains from copper fouling and not from the surface of your jag.

# Tipton Ultra Jag Safety Instruction Guide

## Introduction

Thank you for choosing the Tipton Ultra Jag for your cleaning needs. This guide provides important safety instructions and information to ensure the safe and effective use of the Ultra Jag. Please read this guide carefully before using the product.

## General Safety Guidelines

- Always use the Ultra Jag in accordance with the manufacturer's instructions.
- Ensure that the cleaning area is wellventilated to avoid inhalation of fumes from solvents.
- Keep the product out of reach of children and pets.
- Do not use the Ultra Jag with solvents that are not recommended by the manufacturer.
- Inspect the Ultra Jag for any signs of damage before use. Do not use if damaged.
- Store the Ultra Jag in a cool, dry place away from direct sunlight.

## Specific Safety Precautions for Use

- *Hazardous Chemicals:* Use only modern bore solvents that are compatible with brass. Avoid using any solvents that may react with brass, leading to corrosion or degradation of the jag.
- *Inhalation Risk:* When using solvents, avoid inhaling vapors. Wear a mask if necessary and ensure good ventilation.
- *Skin Contact:* Avoid direct skin contact with solvents. Wear gloves to protect your hands.
- *Eye Protection:* Always wear safety goggles when using solvents to prevent splashes from entering your eyes.
- *Fire Hazard:* Keep the product away from open flames and heat sources, as solvents can be flammable.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary materials: Tipton Ultra Jag, appropriate bore solvent, cleaning rod, and safety equipment (gloves, goggles).
- Ensure that your workspace is clean and free of clutter.

### 2. Using the Ultra Jag:

- Attach the Ultra Jag to the cleaning rod securely.
- Apply a small amount of modern bore solvent to the brass cleaning jag.
- Insert the jag into the bore of the firearm gently.
- Push and pull the cleaning rod through the bore to clean. Observe the color of the solvent as it exits the bore.
- If the solvent turns blue, it indicates copper fouling. Continue cleaning until the solvent runs clear.
- After cleaning, remove the jag and clean it with a suitable solvent to remove any residue.

### 3. PostUse Care:

- Clean the Ultra Jag thoroughly after each use to maintain its effectiveness.
- Store the Ultra Jag in a safe location, ensuring it is dry and free from contaminants.

## **Disposal Instructions**

- Dispose of used solvents and cleaning materials in accordance with local regulations. Do not pour solvents down the drain or dispose of them in regular trash.
- Check local guidelines for hazardous waste disposal to ensure compliance.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Tipton Ultra Jag, please refer to the manufacturer's website or contact their customer service for assistance.

By following these safety instructions, you can ensure a safe and effective cleaning experience with the Tipton Ultra Jag. Thank you for your attention to safety.
