

# Ultra Jag 338 / 8mm Caliber

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

Take a modern bore solvent and squirt it on a brass cleaning jag. The liquid will turn blue as it drips off the jag – it is working so fast, it starts to dissolve your cleaning jag in front of your eyes! If you are following conventional wisdom “clean until you get a clear patch” you might be in for a long night. Tipton®’s Ultra Jag™ features a patent-pending technology that covers the surface of a traditional push-type jag with solvent-proof material, keeping aggressive modern bore solvents from creating false blue stains that normally indicate copper fouling. When you use Ultra Jags, you will get better, faster cleaning results because you will know you are getting blue stains from copper fouling and not from the surface of your jag.

# Tipton Ultra Jag Safety Instruction Guide

## Introduction

Thank you for choosing the Tipton Ultra Jag. This product is designed for efficient cleaning of firearms, specifically for .338 caliber and 8mm rounds. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always use the product in a wellventilated area to avoid inhalation of fumes from cleaning solvents.
- Keep the product out of reach of children and pets to prevent accidental ingestion or injury.
- Ensure you are familiar with the proper handling and cleaning of firearms before using the Tipton Ultra Jag.
- Do not use the Ultra Jag with solvents that are not compatible with brass materials to prevent damage to the jag.
- Regularly inspect the Ultra Jag for any signs of wear or damage before use. Do not use if damaged.

## Specific Safety Precautions for Use

- When applying bore solvents, wear protective gloves and eyewear to prevent skin and eye contact.
- Avoid direct skin contact with solvents; if contact occurs, wash the affected area with soap and water immediately.
- Do not exceed the recommended amount of solvent on the cleaning jag to prevent excessive dripping and potential mess.
- Store solvents and cleaning products in their original containers and ensure they are securely closed when not in use.
- Dispose of used cleaning materials and solvents in accordance with local regulations to minimize environmental impact.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction before beginning the cleaning process.
- Gather all necessary materials, including the Tipton Ultra Jag, cleaning solvents, and cleaning patches.

### 2. Application of Solvent:

- Take a modern bore solvent and apply a small amount to the brass cleaning jag.
- Observe the solvent as it begins to interact with the jag; it may turn blue, indicating the cleaning process is effective.

### 3. Cleaning Process:

- Insert the Ultra Jag into the barrel of the firearm.
- Push and pull the jag through the barrel using a cleaning rod, ensuring to cover the entire length of the barrel.
- Monitor for blue stains on the cleaning patches, which indicate copper fouling.

### 4. PostCleaning:

- After cleaning, thoroughly clean the Ultra Jag with a suitable solvent to remove any residue.
- Store the Ultra Jag in a dry place away from direct sunlight and extreme temperatures.

## **Disposal Instructions**

- Dispose of used cleaning patches and any excess solvent in accordance with local waste disposal regulations.
- Do not dispose of cleaning solvents down the drain or in regular household waste to prevent environmental contamination.

## **Contact Information for Further Support**

For further assistance or inquiries regarding the Tipton Ultra Jag, please reach out to your local retailer or manufacturer. They can provide additional support and information regarding the safe use of this product.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective cleaning experience with your Tipton Ultra Jag. Always prioritize safety and proper handling when cleaning firearms. Thank you for your attention to these important guidelines.
